"Our Business Grows Because Our Seeds Grow."

America's Greatest Seed Establishment

Greetings to Our Friends and Customers Everywhere

N inviting and welcoming you to continue favoring us with your valued orders again this season, we are actuated by two distinct emotions—Pride and Gratitude.

A Pride that is pardonable because the glorious new year of 1908 finds us located in and occupying our Magnificent New Home. The most auspicious event in our career marking also the attainment of our one high aim. A record striven for and accomplished, viz., "America's Greatest Seed Establishment."

A Gratitude that gladly acknowledges an indebtedness for favors received; at the same time realizing that the unique position attained by this House, is due entirely to the unremitting friendship and support that has been bestowed upon us by our Friends and Customers everywhere.

Therefore, it is with profound sincerity that we ask you to again favor us with your valued orders, as we are sure that when you do, it will mean the celebration of a success that both yourself and family, as well as our house and the writer will enjoy.

Yours very truly,

St. Louis Seed Co.

January 1st, 1908.

Did You Receive Your Present?

AST season I offered to each of Our Customers, a beatiful Life Size Bromide Portrait of themselves, valued at \$10.00 Absolutely Free, and owing to the enormous demand our artist's have been working almost day and night ever since, every mail bringing in requests for these magnificent Portraits, until today I believe we have made and shipped out over 200,000 Portraits. Did you receive yours? If so it is needless to dwell on the beauty and exquisiteness of life like expression contained thereon. I will venture to say that never before has any house ever given its customers such a handsome present, and while it cost us a large amount of money, yet I am glad we spent it for I feel as though we have been benefitted to twice the extent we would have been had we spent a like amount in the newspapers.

This season I am going to make a more liberal offering than I did last year. I am going to give a Beautiful Frame Free with each Picture and not charge you a cent for either one, and that is not all, each portrait will be worked up in water colors. Can you imagine anything more beautiful? But before I go further I want to urge you to send for yours at once. I know there is going to be a terrific demand and as I dislike to see a portrait delayed, yet I know that a great many will have to wait until the busy season before sending for theirs, therefore necessitating a few days delay and in justice to both yourself and the artists, I urge you to send for yours before the Big Rush.

A Million Dollars Worth of Presents FREE! FREE! FREE!

When we say FREE, we mean FREE. We do not ask you to send us any money for the present, we do not ask you to do any work s. We simply require that you send us your order, then the present is yours. Can anything be fairer? for us.

READ EVERY WORD ON THIS PAGE.

When we say we will give \$1,000,000,000 worth of presents away, to our customers, we mean it. Many will say it is impossible. Such is not the case. It is possible, and we will do just what we say we will do, providing we receive enough orders to send out the above number of presents.

OUR GREAT BIG FREE OFFER FOR 1908.

Last season our customers know we advertised we would give away absolutely FREE, a beautiful life size (16 x 20 in.) bromide portrait, reproduced from any photo sent us, providing the sender would favor us with an order for at least \$1.50 (one dollar and fifty cents) worth of packet seed, selected from our catalog. The number of such orders we received was phenonominal; in fact they far surpassed our expectations, and why? Simply because our customers had faith in us and knew that we would do exactly as we agreed. But nevertheless giving away the portraits last season was merely an experiment with us, and we decided that if it was a success we would eclipse all records this season by giving away to our customers not only an enlarged portrait, but instead a portrait that is hand colored, as well as a handsome frame to match, ABSOLUTELY FREE. That is what we offer you now. If you are interested and desire a Beautiful Water Colored Portrait of yourself, your father or mother, or any friend, or last but not least your sweetheart, in a Beautiful Frame, then send us your order and a photo to copy from, and the present will be returned to you promptly as possible.

A Minature Reproduction of the Beautiful Water Colored Portrait and Handsome Frame which we Offer You Absolutely Free.

WHAT TO DO TO OBTAIN THIS BEAUTIFUL PORTRAIT.

When you send us your order, send us your photograph (a cabinet if possible, clear and distinct, otherwise we cannot guarantee a first-class reproduction); our artists will then reproduce a beautiful cabinet water colored medallion portrait which will look exactly like the photo copied from (except the finish, which will be beautifully colored); as the camera reproduces exactly like copy, you need have no fear of not obtaining the likeness, which is nearly always the case when copied by hand in crayon. The portrait which we send you will please and surprise you beyond doubt. Your original photograph will be returned to you in the same condition received by us. All water colored portraits and frames must be shipped by express; of course you must pay the transportation charges, when received, which will be from 25 to 35c, according to distance; transferring by express companies where necessary, may slightly increase the above charges, but for all through points the above rate will apply.

NOTICE:—Each water colored portrait which we send out is handsomely mounted on black ebonized glass and framed in a magnificent gilted frame. (See curl.)

REMEMBER:-We do not charge our customers one penny for the above, we only require that you send us your order as specified below.

IMPORTANT: READ THESE INSTRUCTIONS CAREFULLY.

In order to receive one of these handsome water colored portraits and frame free, you must send us an order for seeds in packets amounting to at least \$1.50; remember, packets, not ozs., \$4 lbs., \$4 lbs., bts., bts., bts., or bulk seed of any kind, neither tools, implements or supplies. The above present is for you when your order contains packet seed to the amount of \$1.50, and we postively cannot allow you any other discount when giving you this beautiful present. If you want one of these elaborate portraits, send us your order today Please note: It usualy requires about five days for making and framing portrait, therefore on account of the enormous rush, your photo must take its turn, and it will be shipped to you as soon as completed, which may be a few days later. However, you may rest assured we will ship it as soon as possible.

WHY WE GIVE THIS BEAUTIFUL PORTRAIT AND FRAME FREE.

Every house has their own theory for increasing their trade. Giving away presents is ours. This catalog goes to thousands of new friends yearly. If you are one of them and have never planted our "Pure and Sure" Seeds, our offer to you of a beautiful water colored portrait and frame will induce you to send us at least a trial order this season. Next season we will not need to offer you a present to obtain your order; you will be so elated over the marvelous yields obtained from the seeds we send you that we will get both your and your neighbor's orders without any argument. Each season we spend thousands of new customers. This year we will increase our appropriation and give our customers the benefit. Remember, our old customers are just as welcome to one of these beautiful portraits as our new customers. Then do not delay, send us your order today.

Remember, "Our Business Grows Because Our Seeds Grow."

and GENERAL INFORMATION ABOUT ORDERING.

Please Read Carefully Before Sending Your Order. 3

what we pay the postage on -We pay the postage on goods priced in this Catalog only where we say "Postpaid" after the price or somewhere else on the page. Generally speaking, we pay postage on Vegetable and Flower Seeds in packets, ounces and 4lbs., also on half pints, pints and quarts where specified and on Bulbs where noted. Seeds ordered at freight or express prices cost you 10c extra per pound for postage when requested sent by mail, which must be remitted when ordering. Mexico Postage same as United States and possessions. Canadian Postage 1c for each ounce or fraction thereof.

HOW TO REMIT—Money may be sent to us in the following manner: Postoffice order, draft on St. Louis or New York, or by express. Remittances for small amounts may be made in U. S. 2c postage stamps. If you send personal checks, add 15c additional, as it will cost us 15c each to collect. In remitting, purchasers will be particular to send a sufficient amount to cover their orders. When only a part is remitted, goods will be sent to the amount of the remittance only.

IF ON A "RURAL ROUTE," please see that we have your mail properly directed. If this Catalog was not correctly addressed. please advise us.

ABOUT WARRANTING—While we thoroughly test each and every variety, and we positively will not send out any seeds which we do not believe to be "Pure and Sure" in every respect, yet owing to the many contingencies on which the success of any crop depends, such as the not believe to be Pure and Sure in every respect, yet owing to the many confingencies on which the success of any crop depends, such as the weather being too dry or too wet, sowing too deep or too shallow, an attack of insects, etc., etc., hence it would be unwise, folly, for us to guarantee a perfect crop. Therefore, St. Louis Seed Company gives no warranty, express or implied, as to description, quality, productiveness or any other manner, of any seeds, bulbs or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.—St. L. S. Co.

Every order for goods named in this Catalog will be executed on these conditions only. This is the same disclaimer as used by other re-tible seed houses. All prices throughout this Catalog are subject to important market changes.

SHIPPING DIRECTIONS—We deliver our goods to any railroad depot or express office in St. Louis, as you may direct, the purchaser to pay transportation upon receipt of goods, except where ordered at prices including postage for forwarding by mail. Give your shipping instructions plainly, and if none are designated we shall exercise our best judgment as to forwarding. The day a shipment leaves we always advise by a card through the mail that goods are coming by express or freight. It is often necessary to ship different goods in two separate packages. Frequently we find that goods can be forwarded cheaper and safer by prepaid express than by mail, although you may instruct us to mail them. Please Note—We will not send any shipment weighing 20 lbs. or less by freight. All heavy orders will be shipped by freight unless otherwise ordered. If you are in a hurry for your seeds and desire them shipped by express, state so; also mark your order of RUSH. The

PACKET DISCOUNT—We sell 25 5c packets of seeds for \$1,00. 10c pkt counts as two 5c pkts; 25c pkts as five 5c pkts, etc. We allow discount on packet seed only, and then only when portrait offer on inside front cover page is not taken advantage of. Should you not make your selection, we will add discount packets gratis, or you may add the additional variety of seeds you prefer. FOR EXAMPLE: Remit us \$1.00 for each \$1.25 worth of packets ordered.

WHOLESALE PRICES for quantities not listed, after varieties throughout this Catalog, will be found on pages 4, 5 and 6. Write us for special prices on large orders.

The Plow is used to designate our own private strains, which are the best that can be grown. Watch for it throughout this Catalog. When planting these varieties you will have no cause for alarm.

Quantities here estimated are large enough to insure a good "stand," even if the soil or weather be somewhat unfavorable after sowing the seed, GARDEN SEED TABLE

"OUR BUSINESS GROWS BECAUSE OUR SEEDS GROW."

WE DO NOT sell to stores or dealers; we sell direct to consumer, hence saving you the middleman's profits; which we add to your order—by selling you big packets at small packet prices.

WE FILL YOUR ORDER the same day we receive it if possible. We send you only fresh Seed, Seeds that we stake our reputation on. In other words, we send you Seeds that are "Pure and Sure"

SEND US YOUR ORDER EARLY AND AVOID THE SPRING RUSH.

Wholesale Price List of "PURE AND SURE" Seeds

For Gardeners. Truckers and Associations

If Goods ordered from this list are to be mailed, 10c PER POUND or 15c PER QUART must be sent IN ADDITION TO THESE PRICES. We do not pay the postage on seeds listed on pages 4, 5 and 6.

Having previously placed unusually heavy contracts with our private growers for this year's supply of seed, and having also grown an exceeding large quantity of our own private strains, we are not at all inconvenienced by the short crops of many varieties, as are several other seed houses, who have pasted slips with prices, in their catalogs, notifying their customers of the short crop and increase in prices.

We are in position to sell at the prices quoted in this catalog, which are WHOLESALE DIRECT TO THE CONSUMER; write us for special prices on larger lots than quoted here.

THE 20TH CENTURY GREEN-POD DWARF VARIETY A Beautiful Plant-A Mammoth Pod-An Enormous Yielder

HE most remarkable bean discovered in years. The variety that is absolutely immune from all bean diseases; we have given it a rigid test in every form on our trial grounds for the past three seasons. We now offer it to the world for the first time, and we urge every reader to try this most remarkable bean. In fact we know, as its name implies, it will without a doubt electrify the gardening world. For a main crop bean it cannot be surpassed; its rapid developing merits, together with its phenominal vigor and productiveness insure it a money maker for any grower. The plants are of the strong, sturdy specie bearing in al-

St. L. S. Co.'s Longfellow Bean.

HEN we offered this remarkable extra early snap bean to our customers a couple of seasons ago on our novelty pages, we anticipated that surely before this time we could supplant the space with another bean of equal or superior merit, but such is not the case. In fact we doubt if ever a better green-podded bush variety will be discovered; say what we may we cannot estimate the many good qualities of our private strain of Longfellow. Its handsome straight fleshy solid pods averaging from 6 to 7 inches in length, together with its captivating delicious flavor make it a bean so much in demand, that gardeners have been unable to supply the trade. Owing to its extra earliness it is ready for market fully a week before its nearest rival. Price: 1/2 pt 15c; pt 20c; qt 35c; postpaid.

Nichol's "New Record" Beet 🕿

GREATEST NEW BEET OFFERING IN RECENT YEARS

N ideal table beet of beautiful form, rich blood-red flesh, exceedingly delicious, tender and sweet, beyond description. Its very small tap-root together with its superb size of globular form, make it an ideal beet for the market. The flesh is very fine grained and never woody or stringy. In short we consider this the ideal beet of the day. Price: Pkt 10c: oz 20c: 1/4 lb 50c: postpaid.

St. L. S. Co.'s MERICAN KING" CABBAGE.

SUCCEEDS WHERE ALL OTHER VARIETIES FAIL. THE BEST KEEPER. THE LARGEST HEADED. THE FINEST QUALITY.

> OR family or market garden, for forcing or cold frames, this peerless main erop cabbage has proven its superiority over all other rivals. Its mammoth solid heads and its unique short stem make it a marvel of beauty. Introduced by us in 1904, it has met with universal praise everywhere. Mammoth, solid heads, weighing from 25 to 30 pounds are common sights in a field of this wonderful late Cabbage. We could not offer you anything better if we had the world's entire nutuut of cabbage to select from. Its entire output of cabbage to select from. Its chief points of merit are its absolute relia-bility as a sure cropper, its uniformly large size of head, its great drought and worm-proof

size of head, its great drought and worm-proof qualities, its sturdy constitution and its long standing character. In all points it excels by far all other late Cabbage. A very prominent and distinct feature of the AMERICAN KING is the small number of ribs and their

remarkable smallness in size. This stamps it of the highest table quality, whether for boiling, slicing or kraut, It is ready for use quite as early as any other fall Cabbage, but if allowed to stand in the field it will continue growing until it assumes an immense size. This marvelous new Cabbage will pay and surprise you beyond doubt. Pkt 10c₂½ oz 25c; oz 40c; ½ lb \$1.30; postpaid. For larger quantities see Wholesale Page.

This is the great new Cauliflower that we introduced last season. We challenge the world to produce the equal of this new White Cauliflower wonder. It is the finest, the handsomest and the earliest Cauliflower in the world, as well as the largest species the world, as well as the largest species ever discovered. It is gorgeous beyond description. Its color is snow-white, and its growth is of the most compact form. For an outdoor variety it cannot be surpassed. You who have been planting the Dwarf Erfurt and Snow-ball varieties should give this new introduction a trial this season. Price: ½ pkt 20c; pkt 35c; ¼ oz \$1.50; ½ oz \$2.75; oz \$5.00; postpaid.

TRIAL TEST YIELD OVER 35 TONS PER ACRE.

Our new Carrot offering for this year is one of the most handsome halflong, pointed rooted species imaginable. Its enormous yielding qualities, together with its beautiful orange color, and its practically careless nature make it an ideal Carrot, both for home and stock use. It is especially adapted for all soils, and owing to its small length of root it is more easily harvested than the longer types. If you are looking for a Carrot that will fill the bill in every respect, go no further. "Golden Arrow" will please you beyond doubt. Rrice, pkt 10c; 1/2 oz 15c; oz 20c; ¼ lb 50c; postpaid.

NICHOL'S SUPERIOR SWEET CORN

OUR GREAT NEW SWEET CORN OFFERING FOR 1908

Its Delicious, Plump, Pearly White, Milky Kernels, Fairly Melt in Your Mouth.

HIS new early variety is undoubtedly the most productive of all sweet corn as well as the finest ever discovered. Its mammoth yielding qualities are due to the fact, that nearly every stalk produces from 3 to 6 mammoth luscious ears of the finest quality. The moment your teeth sink into its sweet juicy ears you will at once become a convert to this new Metropolitan product. In fact its chief quality lies in the point, that it is the sweetest and most tender of any corn, as well as producing the most handsome ears imaginable. The stalk in itself is very distinct, growing only of medium height, but very thick; its firm husks insure it with retaining its sweetness longer than any other variety. In short it is the biggest, the best and sweetest corn we have ever offered, and our customers know what this means. Whether you plant for the home or the market garden we urge you to try this 'new Sweet Corn this season and you will have roasting ears such as you never saw before. Price; Pkt 10c; ½ pt 15c; pt 30c; qt 50c; postpaid.

NICHOL'S "GREEN-BACK" CUCUMBER

The Largest, the Handsomest, the Finest

If you have not tried it you have missed the chance of a lifetime. Read the description. It is of a medium early growth and an immense yielder, and of the finest flavor. Vines produce an enormous crop, with large, thick, heavy leaves, thus insuring them almost bug-proof. The handsome fruit grows to a length of from 12 to over 23 inches, and is of a most handsome, dark green type, so much admired by hotels, restaurants, etc. Texas growers, and in fact all Southern shippers are beginning to look upon this famous new variety as the acme of perfection. The flesh is of a white, crisp and appetizing quality, bringing extra high prices on the market. We have reports from thousands of growers who have planted this marvelous Cucumber

the past two seasons with wonderful results (See back cover page of this Catalog.) Pkt 15c; 2 pkts 25c; ¼ oz 20c; oz 35c; ¼ lb \$1.10; 1 lb \$3.25; postpaid.

Radishes 12 Days from Time of Sowing Seed

ARDENERS, here is the Radish for you. As its name indicates it is a "Fire Ball" both in growth and appearance. Radishes 12 days from the time of planting is its record. Can you beat it? Did you ever hear of such a maryelous growing Radish? Plant some of these new

Radishes to-day and take them to market in a couple of weeks. Their beauty and crispness will St. L.S. Co.'s Fire Ball Radish demand fully 50 per cent higher price than any radish you have ever sold. Think what this means. "Fire Ball" is one of the most handsome Radishes ever discovered. We consider ourselves extremely fortunate at being able to offer you such a magnificent forcing Radish, and it is now offered to the world as the "Best". If you are anxious to have Radishes 8 to 10 days ahead of your neighbor, here is your opportunity. Its rich, crisp, brittle flavor with its remarkably good growth and fine pinkish red color will make it a universal favorite. Price: pkt 10c; oz 15c; ¼ lb 40c; postpaid.

THE EARLIEST, MOST PROLIFIC AND FINEST SLICING CUCUMBER EVER DISCOVERED.

NICHOL'S "GREAT INTERNATIONAL" CUCUMBER

E now offer the perfect Cucumber in our new "International," an extra early specie of a most remarkable quality and appearance. Its unique shape and handsome color predict for it a vegetable of immense popularity, its coloring being of a dark green, elightly ridged with high, light stripes that make a handsome effect. It is enormously prolific and a continuous producer. For slicing it is superb, its symmetrical fruits are uniformly large, in fact, larger than most other sorts, with the exception of our Nichol's "Greenback." The flesh is very solid, fine grained and of a most delightful and refreshing flavor. The vines are vigorous and mildew-proof; in fact, for general use we unhesitatingly recommend it superior to any other variety. Price per pkt 10c; ½ oz 15c; oz 25c; ½ lb 75c; postpaid.

NICHOL'S DELIGHT PEA® NICHOL'S MASCOT PEA®

EARLIEST OF ALL BIG-PODDED WRINKLED PEAS.

Introduced by us last season for the first time, this mammoth Pea jumped into popular favor, in fact, we predict that the name and fame of this wonderful earliest of all Big-Podded Wrinkled varieties will go down in history as the marvel of the present age. This new Pea is ideal for market use, While it is a second early, yet it matures almost as soon as the early varieties and re-mains all through the main crop season. in flavor than any pea we have ever seen. Nichol's Early Cash Tomato:

HIS is the Tomato that

has received more enthusiastic praise than any other vegetable we ever offered. Introduced by us two seasons ago, it is now planted in both hemispheres, in fact words of praise come to us from almost every civilized country. It is simply impossible to describe the good impossible to describe the good qualities of this new garden wonder, originated by our Mr. Wm. F. Nichol, the world's greatest Tomato specialist, who a few years ago discovered it. greatest format operation, who a few years ago discovered it. When we introduced it the demand for the seed was phenomenal. Gardeners realized that it was the Tomato they had been in searchof, and some wrote us that they would not begrudge us \$25 a pound for the seed, were it necessary. In short, enthusiastic letters are at this writing coming in from all quarters of the globe. The flesh of this new variety is very solid; the fruitis very large and solid; the fruitis very large and

NEW GLOBE TOMATO.

This is the New Globe Tomato that Created such a Demand on the St. Louis Market Last Season.

Never before did the local market take to a new Tomato as it did to this Never before did the local market take to a new Tomato as it did to this new beauty. Its form is of a Globular shape, hence its name. Its meat is firm and solid and its flavor surpassingly fine. It is a prodigious and continuous bearer until frost. Its strong feature is that it is free from acidity. Its skin being very tough and its flesh solid make it an ideal shipping sort. It sets its fruits very freely and produces them in large clusters. Its color is of a purple hue, Market gardeners are enthusiastic about its money making qualities, reporting that even after most sorts have ceased to produce fruit, New Globe still yields a good crop. We urge you to try it this season. Price: pkt 10c; ½ oz 20c; oz 35c; ¼ lb 90c; postpaid.

NICHOL'S BRITTILENE LETTUCE

As Crisp and Brittle as an Oysterette. A Delicious Early Summer Variety, a Lettuce that we consider without a peer. The phenomenally crisp, tender leaves make it the one finest Lettuce that it has ever been our good fortune to see. Its beautiful blanched creamy white leaves

give it an appetizing effect that must be tried to be appreciated. It is a strong heat and drought resisting variety owing to its compact growing form, and we urge our market gardening friends every where to try it this season. It is a very vluable forcing variety, therefore an ideal lettuce for sowing for a fill in succession. The midrib and veins are unusually small, hence the leaf is edible throughout. Its appearance on the market is bound to secure for the gardener the highest price. Price: pkt 10c; ½ oz 15c; oz 20c; ½ lb 75c; postpaid.

JERSEY CREAN LETTUCE This is one of the finest, the most brittle as well as crispest lettuce. It has proven a success everywhere; it is a close second to our new "Brittilene." It is remarkable for holding on through the hot, dry season, and is a sure money maker for the gardener. This delicious variety is of the cabbage type; the heads are solid and of great size; the leaves are rich, ereamy flavored, hence the name, "Jersey Cream Lettuce." Our description can but give a very faint idea of this remarkable new variety; in fact it canno the over estimated or overpraised, whether for home or market use. It will pay everyone to sow a bed of it this season. Pkt 10c; ½ oz 15c; oz 25c; ¼ lb 65c; postpaid.

CABBAGE.

One ounce will produce about 3,000 plants.

NICHOL'S NEW EARLY TOP-NOTCH.

his is the New Early Cabbage that has set the Market Gardening World to talking. It is superior to any other varieties, both in earliness and productiveness; in fact, it is the most important addition made to the Cabbage family in recent years-beautiful, large, round, solid heads of superior quality, idolized by truckers and gardeners everywhere as being the "King" of all cabbages, We have tested this wonderful early variety with other seedsmen's early offerings and find it from 10 to 12 days earlier than others' earliest. It has proven itself the greatest cabbage for the marketman everywhere. Very hardy; resists drought and wet weather; in fact, is the leader of all early varities. Order early; there is sure to be a great demand. Pkt 10e; 1/2 oz 15e; oz 25e; 1/4 lb 90e; postpaid.

IMPROVED BRUNSWICK - Also known as Fottler's Early Drumhead. Ours is the true short-stemmed strain. Good for second early and late crop, and attains an extraordinary large size. Very popular with the St. Louis market gardeners. Pkt 5c; 1/2 oz 10c; oz 15c; 1/4 lb 45c; postpaid.

HENDERSON'S EARLY SUMMER-AL ways popular with market gardeners, as heads are twice as large as Wakefield and only twelve days to two weeks later. Plrt 56, 1/2 oz 10c; oz 15c; 1/4 lb 45c; postpaid.

EARLY FLAT DUTCH-An excellent, large, flathead second early. Best suited for southern culture, as it is a great heat and drought resister. Pkt 5c; 1/2 oz 10c; oz 15c; 1/4 lb 40c; postpaid.

ALL SEASONS or SUREHEAD-This is certainly well named, as it is a sure header of the Flat Dutch type of heads, and a first-class main crop sort. Grown extensively everywhere. Pkt 5c; ½ oz, 10c; oz. 15c. ¼ lb. 45c; postpaid.

Improved Brunswick.

Early Spring.

This famous variety is an important rival of the Wakefield. It is now planted in large areas all over the country for market. and the growers tell us that we have a strain which is better than that of any other seedsman. The growers we refer to have tried it from all the best houses in the country, There is bound to be a heavy demand for it this season. Heads are of round, flat type. Matures almost as early as Wakefield, and fully a week earlier than any other flathead variety.

Particularly valuable for truckers, and, for its good quality, is one of the finest early cabbages for home gardens. As it is a close header, the plants can be set very close together in the field. Pkt 5c; ½ oz 10c; oz 20c; ¼ 1b 50c; postpaid.

CELERY.

One ounce of seed will produce about 5,000 plants.

ELERY is undoubtedly one of the leading luxuries of the garden. Sow seed in boxes for early crop, transplanting as soon as ground is moist and warm. Colery thrives best in a rich, loamy soil. For main crop sow in open ground latter part of March or first of April, according to climate, stirring soil thoroughly as soon as plants are well up. Celery seed germinates slowly, but after breaking above the ground grows rapidly.

the finest celery in cultivation. It is certainly the most popular early variety, and for the home and market garden it cannot be surpassed. Grows about 18 to 20 inches in height, unusually stocky and heavy. Straight, vigoruos stalks of beautiful appearance and delicious flavor. A good keeper, a rapid seller, always very brittle and tender. Pkt 5c; ½ oz 15c; oz 25c; ¼ 1b 75c; postpaid.

"New Colorado Queen"

Here is the melon—the one we prophesied would become the leading muskmelon. Has our prophecy come true? Well, we wish you could see the wonderful reports of praise, in fact this wonderful new melon has taken the country by storm. Melon growers are enthusiastic in praise of this sweet green-flesh variety. Owing to its well-ribbed, heavily netted, compact form, it has proven to be one of the best shipping varieties. It grows larger than the Hackensack, almost round, being a trifle flat at the stem end. Its hand so me appearance far supersedes anything ever before seen in the Muskmelon world and will prove a bonanza to the market gardener. It is the melon that those who want to grow melons for money and profit, are looking for. It is one of the earliest melons in cultivation, and, in fact, is a close second to our new introduction, "Burrell Gem." See Novelty pages. Price: pkt 5c; ½ oz 10c; oz 15c; ¼ lb 50c; postpaid.

ROCKY FORD—This famous melon is also called Improved Netted Gem, Alamo and Dewey Gem. The world-wide popularity of this variety is as intense to-day as when it first came into prominence several years ago. The melons as grown at Rocky Ford are superior in quality to any variety grown. There are soils in other states that will produce them almost as well as that of Colorado. A great deal of money is being made by melon growers who ship this variety, and on any good melon soil it is of better quality than many other market varieties. Shape is oblong, slightly ribbed, densely netted. Flesh is thick and green in color, sweet and appetizing. We offer a selected strain of this seed of the true type, grown in Rockyford. Pkt 5c; oz 10c: ¼ lb 25c; postpaid.

BANANA—An excellent long melon of superior merit, growing all the way from 12 to 36 inches in length. Flesh is very thick and of a rich orange color. In flavor it somewhat resembles a banana. Hence its name. Pkt 5c; ½ oz 10c; oz 15c; ¼ lb 40c; postpaid.

St. L. S. Co's Nutmeg

BAY VIEW—One of the most popular melons in cultivation. A leading oblong variety. Grows very large, with broad, heavy ribs. A good shipper and immensely productive. Excellent flavor. Of a deep green, appetizing flesh. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

CHAMPION MARKET—An ideal variety grown extensively for home and market use. Larger than Golden Netted Gem and better than Montreal Market. Nearly round. Green flesh, very fine in appearance and delicious in quality. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

MISSOURI NUTMEG-A money maker for the planter. Form is globular, flattened at each end. Wonderfully ribbed, with dark green cavities. Ribs covered with strong netting, fitting it for shipment. Flesh green and flavor superior to any other large sort. Foliage strong and hardy; very productive and a sure cropper. Pkt 5c; oz 10c; ¼ lb 25c; postpaid.

t. L. S. Co's FIRST OF ALL OR wonderful new improved Pea that we offered last season wonderful new improved Pea that we offered last season and which met with such hearty approval from Growers everywhere. Its demonstration on our own trial grounds had proven itself superior to any other early pea. Hence, we urged our friends to plant freely of it. Pods grow large and solid and contain from one to two more peas to a pod than any other early variety. Vines average a height of about 24 to 26 inches, and produce pods in abundance. The peas are remarkably uniform and of the finest quality. We conceed this as one of the finest market peas ever offered. Pkt 5c; left tiles that the peasage of the finest market peas ever offered. 1/2 pt 15c; pt 25c; qt 40c; postpaid.

ALASKA*-One of the earliest smooth varieties. Pods are of a dark green color, extra well filled and ripen very uniformly. A good cropper and a sure money maker for any gardener. An excellent canning variety. Height about 2 feet. Pkt 5c; 1/2 pt 10c; pt 20c; qt 35c; postpaid.

FIRST AND BEST*-This well-know standard variety, is, as its name implies, one of the "First and Best;" in fact, it is a close second to our famous Improved Extra Early. Market gardeners everywhere will bank their reputation on this

assertion. There are many different strains of this celebrated pea on the market, but we have failed to discover any that is superior to our own, or in fact, near it. We have an excellent supply of seed. Height about 2 feet. 1/2 Pt 10c; pt 20c; qt 35c; postpaid.

GRADUS OR PROSPERITY

SECOND EARLY AND

ICHOL'S NEW WINNER The greatest, grandest and most productive second early pea ever discovered. Originated by our Mr. Nichol and introduced by us. So far we have been unable to supply the demand for this famous pea. Gardeners everywhere have begun to realize what this pea means in their garden. Bushes grow to a height of 24 to 26 inches and are laden down with extra long rich colored pods. Owing to its immense size, it requires only about two-thirds as many pods to fill a bushel basket as other sorts, hence you will readily realize it will bring from 40 cents to 50 cents more per bushel than any other variety. Therefore, if you are looking for a money-making pea. you cannot do better than to plant this new introduction. Try it this season. Pk 5c; ½ pt 15c: pt 20c; qt 40c; postpaid.

IMPROVED STRATAGEM-No variety, unless it be some of the ediblepod sorts, exceeds in size of pod our Improved Stratagem-pods 5 inches long are frequently found, and 10 peas to a pod is not unusual. Quality very good. 2 feet. Pkt 5c; ½ pt 15c; pt 25c; qt 40c; postpaid.

St. L. S. Co.'s New French Market.

This is the new pea which we offered two seasons ago, and which at once became famous everywhere. We recommended it as the Ideal Pea and it more than surpassed our predictions as a second Early Wrinkled Sort; it is a close second to our new "Nichol's Delight." (See novelty pages.) It is a mammoth cropper, exquisite in taste and appearance and an enormous cropper. Gardeners say they never saw anything like it before; in fact, it is the gardeners friend and a Second Early Pea that has demonstrated that it is a wonder. One local gardener produced over 350 bushels of nice, green, large-podded peas from one acre. Gardeners everywhere support our claim of it being one of the best peas. Height 2 feet. RADISHES

One ounce will sow 100 feet of drill Five pounds will sow one acre.

ADISHES must be grown rapidly in order to be crisp and tender, and for a suc_ cession of crops seed should be sown at intervals of two weeks until September. Light, fresh, sandy loam is the kind of soil in which radishes thrive best. Good Radishes cannot be grown in heavy soil. They become tough and pithy. The Winter Radish should be sown in the middle of summer. It makes the best growth in the autumn months. Winter Radishes buried in pits out of doors or in earth in a cool cellar will keep delicious and crisp all winter. Sow in drills one foot apart. Thin to about 3 inches apart after the rough leaves make their appearance.

PHILADELPHIA WHITE BOX-This famous white turnip-shaped or globe-shaped Radish is the foremost of its class. It is an excellent Radish for forcing under glass or for growing in the open ground. Its short top and rapid growth make it a great favorite with market men, and its mild, sweet quality wins the favor of the consumer. Extensively grown by gardeners everywhere. Pkt 5c; oz 10c; 1/4 lb 20c; postpaid.

New "White Pearl" Forcing.

WHITE FORCING OLIVE-SHAPE-The earliest white variety in existence. Ready for pulling in from 18 to 20 days in the open ground and even earlier when grown under glass. This is altogether a most remarkable and valuable variety. It is of unusually good quality and of a handsome, attractive shape and appearance. Keeps well for such a quick grower. Tops are very small and the Radishes are very solid. The skin is thin and both the skin and flesh is pure white, of clear and mild flavor, crisp and tender; one of our best offerings. Pkt 5c; oz 10c: ¼ lb 25c

NEW WHITE PEARL FORCING RADISH-The New White Radish without a peer; without a rival, it has proven itself "The long-felt want," Gardeners are enthusiastic in praise of its wonderful merits. Every one says they never saw its equal. If you did not try them last season, do not fail to do so this year. It is of the famous half-stump rooted class, and a pearly white, appetizing color, being very crisp and brittle. For a forcing and early marketing Radish it is superior to any other white sort, and will prove a money. maker for gardeners everywhere. It does not become hollow or pithy and remains in eatable condition longer than any other Radish before going to seed. Price: Pkt 10c; oz 15c; ¼ lb 40c; postpaid.

St. L. S. Co's New Crimson Giant.

ST. L. S. CO'S NEW CRIMSON GIANT-The quickest growing small round Radish in existence; ready for the table 18 days from sowing. A bonanza for gardeners. Our greatest late introduction. Pkt 10c: oz 15c: 1/4 lb 30c: postpaid.

EARLY SCARLET TURNIP WHITE TIP-This excellent variety differs from the Early Scarlet Turnip Radish only in being beautifully tipped with white. Very attractive. A fine market sort, either grown cutdoors or under glass. Very early. Pkt 5c; oz 10c; ¼ lb 20c; postpaid.

HALF LONG DEEDSCAPLET

-A handsome, extra early, half long variety. Roots are somewhat longer than the olive-shaped. Skin is smooth and of a rich, deep color. Flesh white, tender and crisp. Small amount of foliage. It is recommended for forcing. Also called Paris Beauty, Pkt 5c; oz 10c; 1/4 lb 20c; postpaid.

FRENCH BREAKFAST-

Too well known to need any introduction. A favorite for private gardens. For home or table use it can not be surpassed. It is of a beautiful olive shape, scarlet, with white tips. Pkt 5c; oz 10c; 1/4 lb 20c; postpaid.

Improved Striped Cushaw.

One ounce Early varieties will plant 45 hills. One ounce Late varieties will plant 25 hills: 3 to 4 pounds to the acre.

Plant from 8 to 10 seeds to the hill, thinning out all but 3 or 4 of the strongest plants after they have started. Plant the bush varieties about 5 feet apart, each way, the running kind about 8 or 9 feet apart. The Summer Squash should be used when young and tender, and the winter varieties should be let ripen thoroughly before storing away for the winter.

THE NEW WONDER MAGNUS

The Biggest, Handsomest, Juciest and Most Solid, as Well as the Earliest Tomato in Existence-Our Greatest Achievement-Our Greatest Introduction.

ERE you are, Mr. Marketgardener, Mrs. Homegardener and every one else. This is the place for you to stop and read. Read about our mammoth new tomato, which we introduced two seasons ago. The tomato that has made more money for gardeners in every civilized country than any other new garden product ever discovered. We want you to try them this year. We know you will be elated. Why, just stop and think. Bushes laden down with big, solid, delicious tomatoes of the finest quality. Can you ask more?

READ DESCRIPTION—This Ideal Tomato, in richness, flavor and excellence is so much superior to any other known variety (except our new Nichol's Early Cash Tomato) that there cannot begin to be any comparison. It is of a beautiful, deep, rich red color, almost as solid as a rock, and contains very few seeds. For canning, slicing, cooking or serving in any way, its rich, appetizing flavor can not be equaled. In fact, it is a Tomato fit for the gods and a money-maker for everyone. Its appearance will command almost double the market price, and it is a Tomato that will always be in big demand. We urge our customers and friends everywhere to plant freely of this New Wonder Tomato this season. Pkt 20e; ½ oz. 35e; oz. 50e; ¼ lb \$1.75; postpaid.

Our Mr. Nichols is known throughout the world as "King of all Tomato Originators." Probably no man living has received more newspaper and magazine living has received more newspaper and magazine comments upon his introductions in this line than Mr. Nichol. One of his crowning achievements was to originate and introduce our New Wonder Magnus Tomato. Hence you may rest assured that every packet, ounce or pound of tomato seed which you may purchase from us is of the "purest and surest" strain that can be grown. We urge our friends to order their "New Wonder Magnus" Seed early, as the stock is limited. is limited.

Such Proof as the Above Cannot Be Doubted.

DWARF CHAMPION—This famous Tomato is a favorite home garden variety. Its stiff, upright stocks are so sturdy as to hold the fruit well above the soil, even withou' stakes or supports. It is early and larger than most extra large sorts. Medium to smaller in size—smaller than the great midsummer types. Of superior table quality. Resembles the Acme in color; very productive. A sure cropper. Pkt 5c; ½ oz 15c; oz 25c; ¼ lb 70c; postpaid.

SPARK'S EARLIANA. HIS is the famous Tomato that eastern

Seed Houses laud so highly, and in fact, it is well worthy of any good comment. Market gardeners who have tried it are enthusiastic in its praise, and now grow it for early market in preference to any other old standard sort, it being fully a week earlier. It supersedes the Atlantic Prize by far, because the fruits are not only remarkable for their earliness, but for their large size, perfect form, bright red color and delicious flavor. Ripens clear to the stem and does not crack. Its solidity and fine quality are quite equal to the best medium and late sorts. Grows in clusters of five to eight, averaging 3½ inches in diameter. While we fully consider it one of the finest early Tomatoes, yet it cannot compare with our New Wonder Magnus or Nichol's Early Cash. Pkt 5c; ½ ozl5c. oz 20c; ½ lb 65c; postpaid.

early market. Flesh is very firm. It is a robust grower, setting its clusters closer together than most other varieties. The fruits are usually very deep from stem to the blossom end. We sell several thousand pounds of this well known Tomato annually which speaks for itself. Pkt 5c; ½ oz 10c; oz 20c; ¾ lb 65c;postpaid.

PONDEROSA.

This mammoth Tomato is a great favorite for the home garden because of its immense size, stone-like solidity, delicious quality and beautiful appearance, whether stewed, sliced, fried, stuffed and baked or canned. Contains very few seeds; is all "meat" and of perfect form. Is valuable to grow for market, and forces under glass. Color, glowing crimson. A very heavy yielder. Pkt 5c, ½ oz 20c; oz 35c; ¼ lb \$1.00; postpaid.

Spark's Earliana.

Truckers' Favorite. A very large purple Tomato of from cracks. An ideal shipper and a suberb variety for the table. Pkt 5c; ½ oz 10c; oz 20c; ¼ lb 60c; postpaid.

LIVINGSTONS'S BEAUTY—This standard Tomato is too well known to need any introduction. It ripens with Acme and Perfection, and is a model in beauty and shape, being entirely free from rough specimens. Grows in large clusters and retains its large size late in the season. It is very valuable for shipping and for early market, in fact, many Seedsmen claim it one of the best. Color, "purple." Pkt 5c; ½ oz 10c; oz 15c; ¼ lb 50c; postpaid.

ACME-A large hardy, productive variety, ripening its first fruit almost as early as any, and continuing to bear abundantly until cut off by frost, Fruit in clusters of four or five: of medium size. perfect form, round, slightly depressed at the ends and very smooth. Free from cracks and stands shipment remarkably well; flesh solid and of excellent flavor. This variety is also used for planting under glass. Color. glossy red, lightly tinged with purple. Pkt 5c; 1/2 oz 10c; oz 15c; 1/4 lb 50c, postpaid.

St. L. S. Co.'s NEW DWARF STONE—The king of alldwarf varieties. One of our greatest offerings. Grows double the size of Dwarf Champion, fully as early and vastly more productive, 10 to 12 fruits having been picked at a time. Mammoth in size, weighing from 2 to 8 pounds each. Beautiful in appearance, solid in flesh, appetizing in quality. A close second to our New Wonder Magnus. Vigorous in growth, perfect in shape. Can be planted one-half closer than ordinary varieties. Does not crack about the stem end. Pkt 10c; ½ oz 15c: oz 25c; ¼ lb 40c; postpaid.

Mr. Samuel G. Reams, of Cherry Co., Neb., writes: "All seed I purchased from you last spring were O. K. in every respect. 'New American King' Cabbage outyielded anything ever seen before in this country."

SEED CORN DEPARTMENT

Nichol's Yellow Qeen. A TREMENDOUS SUCCESS, TRIED

AND PRAISED EVERYWHERE.

The Golden Yellow Corn that has Captivated the Entire Corn World. ___Introduced By Us Last Season. ___

Holds World's Record of 383 Bushels per Acre.

TE have just 10,000 bushels of this world-beating corn to offer our customers this season. Had we have had twice the amount last season we could not have filled all the orders we received. Message after message came to us from enthusiastic customers pleading and begging us to send them "just a little" of the seed, but we were compelled to return several thousand dollars on orders which we were unable to fill. Never before have we experienced such a terrific demand for a new introduction. The country is beginning to realize the importance of New Corn Seed. The press and public became wild when our new Yellow Queen Corn was discovered.

Yellow Queen's Eight Great Points of Supremacy.

It is the most robust yielder of any corn ever discovered.

It produces more well developed ears to the stalk than any other corn.

It is a sure yielder as well as a sure 100-day cropper.

It produces the most solid and heaviest ears of any yellow corn known.

It will thrive in extreme drouth or wet, where other varieties would die.

It will grow more bushels on good land or poor land than any other kind.

It will out-shell, out-yield and out-sell any other corn on the market.

It produces more fodder than any known variety.

After figuring out the many advantages of our great yellow corn effering it is well to take the following facts into consideration:

It costs about the price of thirty bushels of corn to raise one acre. Now at this rate the man who raises but thirty bushels per acre merely breaks even. But the man who raises forty bushels per acre has ten bushels profit. At a value of 50c per bushel his income is \$5.00 per acre for his land—a small dividend, is it not? Now on the other hand, the man who raises 200 bushels per acre has a net profit of 170 bushels per acre, yielding a dividend of \$55.00 per acre, clear of all expenses, including cost of seed, labor, etc. Therefore you will see that a low yield of our Yellow Queen corn on one hundred acres of ground would net the grower \$8,500.00, with absolutely no more labor than the thirty-bushel-per-acre man had in producing his yield, for which he received no recompense. We urge you to devote a good share of your ground to this marvelous new corn this season; you will be enthusiastic when husking time comes and will wonder if such enormous yields will ever cease. Say what we may we cannot describe its many good qualities. In fact it is superior to any other corn from every point of view. It defies the elements of the weather, and returns yields that please, profit and astonish you. It is the corn "to tie to," no matter where you live. It will do magnificently anywhere, where corn can be grown. The ears are very large, well developed and of a golden yellow color. The grains are deep and the cob is small. The stalks grow to a medium size in height, being very juicy and bushy, therefore making one of the finest fodder corns obtainable. Many of the stalks produce as high as six ears. There are very few suckers found in a field of our Yellow Queen. If you are looking for a corn that will make you more money than any other stalks produce as high as six ears. WHITE STAR

The GIANT WHITE CORN OF THE WORLD

2372 Bushels per Acre Record.

HIS Great White Corn offering has proved itself the leader in the 100-day white corn class, as we prophesied when introducing its brilliant future. So it has come. Thousands of farmers and stockmen report enormous crops from this magnificent variety. The yield, did you say? Here are a couple of letters. Read them. They speak for themselves:

Read them. They speak for themselves:

"Your White Star Corn, which I planted this season, broke all records here. There must be something about your seed corn that is marvelous, as I have a friend who beat everything in his state (Kansas) with your 'Gold Bond' I certainly am going to try some of that this year. My White Star yielded 237½ bushels per acre.

"White Star outshines anything ever seen here in the corn line. I purchased 10 bushels from you last spring, and I trust you will not think me enthusiastic when I say it made me ten times more money than any other investment I ever made. Success to you.

Need we say more? In our New White Star Corn you will find none of the had

Need we say more? In our New White Star Corn you will find none of the bad qualities sustained by other white varieties, and not only does it contain all the good points in the makeup of other famous varieties, but many more as well. We used great care in selecting this wonderful new variety, and we have no hesitancy in saying it is without exception the finest and largest yielding white corn in the world.

WE WANT YOU TO TRY IT THIS YEAR.

We want you to write us your results. You will find it to be the purest white, the deepest grain, the smallest cob, with the largest percentage of perfect, smooth ears of any corn you have ever grown. For a bottom ground variety it will outyield by far any other known corn on the market.

by far any other known corn on the market.

Our many growers who have tried this new corn are enthusiastic in their praise and all prophesy a brilliant future for it. It will undoubtedly prove a prize winner wherever exhibited. Just think of a field of corn laden down with beautiful, silvery ears, not nubbins. Can you resist giving it a trial? Surely you will not continue planting your old stock, or any other new stock of white corn that may be offered you, when you can obtain such a wonderful yielding variety as this is. If we did not know it was the best to be had we would not recommend it as such. Every wide-awake, intelligent farmer will realize this. Your success is our success. Our benefits are mutual. Therefore, let us urge you to order a liberal supply to-day. The cost is not great, and the returns will prove to you the best investment you have ever made in the corn line. in the corn line.

Stalk is of the most vigorous growth, being tall and of a beautiful appearance, with wide, medium length leaves extending thickly around joints, from which shoot ears in abundance. It is a very deep-rooted corn, hence it is not easily injured by wind storms. Neither are the roots near the surface, thus insuring you against any chance of being broken off and the vitality of the plant sapped in cultivation. For a genuine perfect corn in every respect we are sure it will please you.

THE GREAT BIG DEEP GRAIN VARIETY.

THE LARGEST, BEST AND MOST PRODUCTIVE YELLOW CORN EVER KNOWN.—THE GREAT 90 DAY YIELDER.

HIS FAMOUS new variety introduced by us four seasons ago is now acknowledged by growers everywhere as the "King" of all corn. Could our forefathers have had access to such productive corn as our Nichol's Gold Bond, they simply would have been elated beyond expression. Just think! A 90-day corn yielding over 250 bushels per acre. Can you imagine what such a variety of corn as this means to the agricultural world? Little did we think when we offered this big early yellow corn for the first time that it was going to create such a demonstration throughout the country as it did. Why, we were compelled to work day and night to fill the orders that poured in from all quarters, and the reports which we received are simply astonishing. From 200 to 275 bushels per acre seems to be its yield. Everywhere it has proven itself the most marvelous and extraordinary corn ever discovered. It grows as naturally as a weed. It produces just as readily. It is an ideal corn to plant for a general crop. Enthusiastic growers pride it as Two-to-One better than any other early corn. It is a money maker for anyone. In fact it is the most remarkable corn ever offered. It is the corn for you, Mr. Stockman. It is the corn that is a winner every time. We challenge the world to produce its equal. It can't be done.

READ DESCRIPTION.

Stalk grows to a height of 8 to 10 feet; ears grow midway, hence making it easy to pick; all stalks are heavy ear yielders, there being no barren stalks, as is the characteristic of many other noted varieties; ears grow 10 to 12 inches long, being very thick and uniform in appearance, with 18 to 20 rows of very deep, yellow kernels, set on a very small red cob, and well filled over the tips, being capped with a snug-fitting husk, thus insuring it "Frost Proof" in the lowland districts. The leaves grow broad and long, which make it an ideal fodder corn after husking. This corn is not only good for certain sections, it is good for any climate where corn will grow, north, east, south or west. For high or low lands, it is the best. Do not fail to give it a trial this year. You will never have known the pleasure of growing big, yellow corn until you have tried this variety.

Read the Reports.-Judge for Yourself.

IOWA-275 Bushels per Acre. Mr. Daniel Cunningham, Washington Co., Ia., says: "Your Gold Bond is the greatest corn ever seen here. It ripens in 93 days with a yield of over 275 bushels per acre."

NEBRASKA—263 Bushels per Acre. Mr. Roy Farrell; Richardson Co., Neb., says; "Hurrah for Nichol's Gold Bond. The seed I purchased from you last spring was the finest I ever saw. The yield was almost beyond my cribs' capacity, 263 bushels per acre."

Note the Small Cob and the Big Deep Grain.

KANSA-252 Bushels per Acre. Mr. Alex J. Driscoll, Johnson Co., Kans., says: "Your Gold Bond Corn broke all records for yield in this section, 252 bushels per acre. Can you beat it? I will never plant any other."

MISSOURI-239 Bushels per Acre. Mr. Richard Hendrickson, Atchison Co., Mo., says: "You certainly lead the world on seed corn. Your Gold Bond eclipsed all records here this summer, yielding 2391/2 bushels per acre.

REMEMBER We are the original introducers of this wonderful yielding corn. If you desire the genuine it must be purchased from us. Many other dealers tried to copy our descriptions and push common yellow corn on the market for Nichol's Gold Bond. Beware.

Nichol's Yellow Dent

The Greatest Ninety-five Day Corn Ever Discovered. The Large, Deep-Grain Variety. The Small-Cob Corn.

Recently introduced by us, this corn met with universal demand. Growers are enthusiastic about it. They write us from far and near. Never before has a new corn met with such approval. When we discovered it we would have offered it as our leader had we discovered it sooner. Look at the grains, 95 days from time of planting. Need we say more. A corn with ears of unusual length, evenly filed, medium long grains and a small cob, together with an enormous yield, such is the makeup of this wonderful new variety. No grower will make a mistake to devote a good share of his ground to this famous new corn.

RCOTE.

READ DESCRIPTION. The ears are large, handsome and well filled from but to tip. The cob is very small; in fact, a couple of grains will more than reach across it. It is early, sure to mature from 95 to 100 days. It generally produces 3 to 4 well-developed ears to a stalk. The stalks grow from 8 to 12 feet in height. The ears growing midway, it is a natural yielder in spite of excessive wet or dry weather; for latitudes where heretofore corn would not thrive our Yellow Dent will prove a winner. This wonderful new corn combines more merit than any other corn ever discovered in this class. It will produce twice the amount on poor soil than any we have evertried. It is the corn for you, Mr. Farmer. It is the corn for you, Mr. Stockraiser. It is the corn for everybody, rich or poor; in fact it is the ideal corn of the corn world, and is surpassed by no other 95 day corn.

We want your testimonial. Your testimonial will be like the others.

FIRST-Because it is the earliest white corn in existence. SECOND-Because it is one of the most productive

varieties ever offered. THIRD-Because it has a large number of rows on

a cob, making it an immense yielder.

FOURTH-Because it is the greatest and handsomest white corn you ever saw.

DESCRIPTION-Stalks grow of medium height, DESCRIPTION—Stalks grow of medium height, laden down with ears of pearly white, on a cob of the same color and of very small proportion. The ears are well filled from butts to tips and of uniform size, there scarcely being any nubbins. Owing to its extreme earliness, it is sure to mature. Our first testing yield of this marvelous variety being near the 200 bushel mark. Its supreme whiteness will demand a higher market price than any other variety. We urge you to plant freely of this sort, and again we say, ORDER TODAY.

Nichol's Yellow Beauty

THE NEW CORN THAT IS LEADING THE CORN BELT DISTRICT.

XPERT corn growers everywhere predict for this new corn a golden future. It is so much superior to the famous Iowa Gold Mine there can not begin to be any comparison. From every point, depth of grain, smallness of cob, productiveness and yield, our new Yellow Beauty will surpass Gold Mine 331/2 per cent. Be one of the first in your neighborhood to grow this money making sort. You will find no suckers or barren stocks in this variety: in fact, it is the dent corn we have all been looking for. It is much larger than Pride of the North, and heavier, two ears of this sort weighing as much as three ears of Gold Mine, owing to the extreme smallness of the cobs, which weigh only about 5 or 51/2 pounds to the bushel. This is a point that can not be equalled by any other corn. In order to obtain this wonderful new variety, you must purchase it from us, as we are the sole introducers, and this is the third season it has ever been offered for sale. We confidently recommend this variety as the acme of perfection, and urge you to plant it freely. Nichol's Yellow Beauty will prove a magnificent corn for main crop; indeed, we predict you will plant no other when once you have tried it. You will find this corn ready to crib long before your home grown varieties. Now, do not wait until after our stock is exhausted, but send us your order to-day. Price: 1 to 20c; postpaid. St. L. S. Co.'s CALIC

HIS famous speckled variety is one of the most prolific yielders known. Our imported strain of this old standard sort is so much superior to its predecessor that there can hardly be any comparison in yield. As will be seen by the tip of the ear in illustration, it carries that distinctness of form and closely netted grains that go to make up an ideal corn. Cob is of medium thickness and the grains have a speckled coloring, hence its name "Calico." Mammoth yields are reported from growers, and in the Great Corn Belt district it is looked upon as a "stand-by" variety, owing to its drought and wet-resisting powers. It is a vigorous grower and thrives exceedingly well on thin soil, and is greatly relished by stock of all descriptions. As a flesh producer it is second to no other corn. Stalks are very solid and juicy, and is ranked high as an excellent fodder corn. Price: 1 lb, postpaid, 20c. By freight or express: Pk 65c; ½ bu \$1.00; bu \$1.75; 5 bu at \$1.65.

REED'S YELLOW DENT

HIS celebrated variety is being widely advertised and introduced throughout the country, it being an ideal all-purpose corn, the butts and tips being well filled. Much has been written by experts regarding the good qualities of this corn in Agricultural papers throughout the country; in fact it is one of the most popular varieties in the Central States. The ear is of an excellent shape, growing from 8 to 10 inches long and from 20 to 24 rows to the ear, it is very productive and solid and matures in from 95 to 100 days. Owing to its very beautiful cylindrical shape it is an ideal sort for exhibitions, having carried off many high honors at fairs and corn shows. Our stock of this variety is superb and we can please you beyond doubt. Price: 1 lb, 20c; postpaid. By freight or express: ¼ bu 50c; ½ bu 85c; bu \$1.50; 5 bu at \$1.40 per bu.

HICKORY KING

This white corn is a great favorite everywhere. So large are the grains and so small is the cob that on an ear broken in half a single grain will almost cover the cob section. It is of a strong, vigorous growth; the stalks are deep rooted, taking a firm hold in the ground and stand upright. It yields splendid crops on light soil, and is undoubtedly one of the most productive white field corns in existence. Frequently grows with three ears to the stalk. Price: 1 lb 20; postpaid. By freight or express: Pk 65c; ½ bu \$1.00; bu \$1.75; 5 bu at \$1.65.

PRIDE OF THE NORTH

A very early Dent variety grown everywhere. Stalks small, with broad leaves; ears are short, 12 to 16 rowed, and carry grains clear to the tip. On good corn land it will yield as much as any larger eared variety; owing to its small size it can be planted closer. Its chief use, however, is for planting late in the season. About 90-day. Price: 1 lb, 20c; postpaid. By freight or express: Pk 50c; ½ bu 85; 1 bu \$1.50; 5 bu at \$1.40 per bu.

Please Remember that all our seed corn is tipped before shelling, thus insuring you with the most perfect seed at all times. If you are a stock man or farmer it will pay you to make note of this fact, and we are sure that after you have done so you will appreciate our efforts in advising you to do so. Again we urge you earnestly to order early in order to avoid our being sold out of any variety you may desire.

POP

OWING to the continued increasing demand for Pop Corn on the market it is fast becoming a profitable crop to grow. It will, in fact, pay one to grow it in large fields, as the pure food industries throughout the country are consuming thousands of bushels daily. It is as easily grown as field corn and yields from 3 to 4 times more per acre, bringing a much larger price than the field varieties. The fodder is excellent for stock, thus insuring it a two-fold paying investment. We have taken special pains with our stock this year, and we are in a position

NICHOL'S NEW "HUNDRED BUSHEL WHEAT"

The Greatest, Grandest and Most Productive Wheat Ever Discovered-Now Offered in Our Catalogue for the First Time.

A Head of Nichol's "Hundred Bushel" Wheat.

HE world's greatest offering for 1908. Have you seen the wondrous reports from the press throughout the country of our new wheat? We wish we had space to reproduce a few of the enthusiastic writeups by those who witnessed our trial test. Every one was elated, the unanimous verdict being, "The finest and best wheat in the world." We want you to try it this fall. You will be elated. The heads are of mammoth size. Just think, many of them contains over 200 kernels each. The straw is bright and very upright, and owing to its very deep root, therefore is the "ideal" variety to sow. We regret that, owing to lack of space, we are prevented to illustrate and describe this new wheat more fully. Again we say, try it next fall. Price: Pk 65c: bu \$2.00: 10 bu at \$1.90 per bu.

Nichol's Wall Street Favorite

-Our great wheat that we introduced two years ago. Its mammoth record yield of 83½ bushels per acre famed it as the world's leader until we originated "Nichol's Hundred Bushel Wheat," listed above Nichol's Wall Street Favorite is a smooth, strong, healthy wheat and is seldom troubled with insects that affect other wheats. The straw is very long, with big, full, solid heads (see illustration of heads). In fact, it is the wheat that will make any man dollars.

Read this testimonial: "Hurrah for NICHOL'S WALL STREET FAVORITE! 83½ bushels grown on the same land that heretofore yielded 25 to 30. Can you beat it? If not, I will beat it next season. I am going to sow new ground and I am positive I will pass the 100 bushel mark. Gentlemen, your wheat is a wonder."—Geo. Bidwell, Dickey County, N. D. Need we say more. Price: Pk 65c; bu \$2.00: 10 bu at \$1.90 per bu.

NICHOL'S NEW PROSPERITY—A close second to our famous Wall Street Favorite, with the exception that it is about 5 to 6 days later, an abundant yielder, a sure cropper and an ideal variety to sow with Wall Street Favorite, for the reason that by the time you have Wall Street Favorite cut New Prosperity is ready to cut. We could write pages of good qualities of this new smooth variety, but for lack of space we must omit it. As a yielding variety it is a close second to Wall Street Favorite, having yielded 79 bushels per acre. Price: Pk 65c; bu \$2.00; 10 bu at \$1.90 per bu.

Think What This Means.

Mr. Wheat Raiser, are you going to hesitate putting in a crop of these three immense yielding wheats listed above? No, we know you will not. No industrious farmer will hesitate one moment. Just imagine had you raised a crop of either of these varieties this season the amount of money you would be ahead to-day. Think of the coming crop; it will do just as well. Remember, they are not acclimated to any special wheat regions, as a great many other varieties are. Don't you think it will pay you to try them this fall?

PEDIGREE FULTZ (Smooth)—Its yielding powers throughout the North and Northwest is superior to any of the other old-time varities. Our customers tell us that the main trouble they have in securing this variety from other houses is the fact that it is mixed with common sorts. Our stock is "Pure and Sure" and true to name, being of uniform size throughout. Price: Pk 50c; bu \$1.75; 10 bu at \$1.60.

Nichol's Wall Street Favorite.

MACARONI SPRING WHEAT—Reports of enormous yields come to us from all quarters. It is heartily endorsed by the United States Department of Agriculture; it is a great drought resister, and, in fact, one of the leaders in the great wheat belt region. We have an excellent stock of the seed. Price: Pk 60c; bu. \$2.00; 10 bu at \$1.95.

Worn out varieties of corn and begin planting some of the new kinds which we are offering. It is a shame to see the amount of good soil, rain and sunshine annually wasted on the old, old worn out stock. Many will not believe that horticulture and agriculture have advanced with the progress made in other lines of commerce. This is a wrong belief; on the contrary both gardening and farming have advanced rapidly, both in quality and quantity. This you can see exhibited at the fairs everywhere each year. Then why not begin this year right by planting the new varieties offered in this catalog? The cost is not as great, comparatively, and the result will surprise you, beyond doubt.

Our Mr. Wm. F. Nichol, being known throughout the entire potatogrowing world as the "King of Potato Specialists," our new offerings each season clearly demonstrate their superiority over all other rivals. This season we offer you a new Potato of excellent merit—"Big Buster." We predict the future of all other famous Potatoes as a shadow when compared with this new marvel. The potato-growing industry has become so prominent throughout the United States that it is well to take into consideration the importance of good seeds, as no other crop is more important than Potatoes. May we not receive your valued order?

One of the Best Medium Late Potatoes Ever Offered - a Close Second to Our Wonderful New "Big Buster"

Being an improved late variety of slight russet appearance, growing to an enormous size. It is of a solid type, being firm and of a compact growth; is an excellent yielder and wonderfully productive. It is an improved variety over all other medium late sorts, such as Rural New Yorker and Carmen No. 3. The beauty of this new variety is that practically all the potatoes grow to an enormous size, yielding no small ones, as do other varieties. The term "Jumbo," would really apply to it for a name notwithstanding its well-earned ittle, "King" of Missouri.

"KING" OF MISSOURI is a beautiful potato, most desirable of shape, very smooth and regular in form, and with a handsome russet skin with an unusually thick netting, making it an ideal shipping as well as a first-class keeping potato. It is of the finest quality, an excellent cooking variety, being of a dry, white, mealy nature. It will undoubtedly prove one of the favorite market sorts, and no one will do wrong to devote a large share of his ground to this new variety the coming season. Price by freight or express: ½ pk., 35c; pk., 60c; ½ bu., \$1.10; bu., \$2.00; bbl., \$5.00.

"Both your Improved Peachblow and 'King' of Missouri Potatoes proved to be the best and largest yielding potatoes we ever saw." E. D. Briggs, Douglass Co., Neb.

"'King' of Missouri Potato certainly is a wonder. From the small lot I obtained from you I raised nearly 500 bushels of monstrous large, mealy potatoes." Frank Saunders, Richmond Co., Ohio.

NICHOL'S & New Improved PEACHBLOW

OVER 600 BUSHELS PER ACRE

Read what Mr. Horne says;
"Hurrah for Nichol's New Improved Peachblow blow! It is the finest Potato I ever raised. I planted five acres and gathered ever 3,000 bushels of nice, large, pink-eyed beauties. I

"ALEX A. HORNE, Powshiek Co., Iowa.

This is the wonderful new potato which we introduced in 1905. It is the potato we attached so much faith to. It is the notato that more than fulfilled every promise which we made. In fact. it is the potato that has taken the entire country by storm. Market gardeners report it as the finest potato they ever raised, both in appearance and in quality.

Our New Improved Peachblow since the above time has been tested with more than one hundred other varieties, and in every case it has proven itself superior to them all, not only in its enormous yielding capacity, but its improved size, the fine grain, the

white mealy qualities and excellent flavor which has so long made the old Peachb'ow such a universal favorite. The potatoes are of a very uniform size, none growing so small but that they can be readily used. It is of a beautiful type, producing large, white, smooth potatoes, with handsome, shallow, pink eyes, giving them a very appetizing appearance when on the market. It is an excellent keeper, and we have never known them to rot. even late in the spring. One potato characteristic it does not contain, and that is, it does not have any black or hollow core; in fact, it is so much superior to any other Medium Late Potato there cannot begin to be any comparison. Adding to these points its great attractiveness is one of the main features. Market gardeners and others growing for shipping purposes should take into consideration that it gives to you an ideal potato in every respect. You who were not fortunate enough to obtain stock last season, we urge you to try them this year. You will never regret the test. Order early, as there undoubtedly will be a big demand. RURAL NEW YORK No. 2.

HIS famous late sort we concede as one of the best of the well known varieties. Much has been written by the press throughout the country on its good merits. It is quite distinct in appearance, flesh white, quality excellent, shape nearly round, somewhat flattened. Tubers large to very large, but not rough or irregular, eyes quite small, form symmetrical. One of the best late potatoes grown. An enormous yielder. ½ pk 30c; pk 50c; ½ bu 90c; bu \$1.60; bbl \$4.00.

CARMEN No. 3.

This great potato was originated by Mr. E. S. Carmen and is different from other famous varieties that so soon die out. Probably because it is a wonder everywhere and retains its popularity. It is little affected by drouth or bugs, and is a No. 1 yielder, of perfect form, almost every potato being of uniform size or shape, averaging nearly a pound each in weight. It has but few eyes, which are very hollow. Skin and flesh extremely white, having no dark or hollow parts, and its cooking qualities are exceptionally fine. Price: ½ pk 30c; pk 50c; ½ bu 90; bu \$1.60; bbl \$4.00.

EARLY OHIO (Northern Grown.)

Our stock of this standard old variety is grown for us under special contract by one of the greatest potato specialists in the Red River Valley. Much need not be said of this great potato. Among the standard early varieties it undoubtedly stands at the head of the list. the greatest potato specialists in the Red River Valley. Much need not be said of this great potato. Among the standard early varieties it undoubtedly stands at the head of the list. It is a favorite everywhere, and one of the market gardener's money makers. However, neither this or any of the other varieties listed on this page can begin to compare with our great offerings on the preceding pages. Early Ohio is now widely known and is the popular sort for early planting. It has the advantage of being fit for use and sale even before becoming fully ripe. We have a splendid stock, and we urge you to order early.

Note—Unlike other extra early varieties, our Red River Valley strain of Early Ohio does not produce a crop of walnut-size tubers, but all are uniformly large and smooth. It is an extra early and heavy yielder. It is an excellent keeper for such an early variety, and the quality is choice. It is indeed a highly valuable variety and we are not too strongly recommending it when we say to every potato grower—plant our special strain of Early Ohio this year. Price: ½ pk 30c; pk 50c; ½ bu 90c; bu \$1.60; bbl \$4.00.

EARLY ROSE.

No introduction is necessary for this standard productive variety; among gardeners and homelovers everywhere it is considered best. For earliness, goodness of quality and a No. 1 market sort it stands in the top rank. Price: ½ pk 30c; pk 50c; ½ bu 90c; bu \$1.60. bbl \$4.00

EARLY TRIUMPH.

This variety matures its crop at least a week in advance of the Early Rose. Potatoes are of medium size, round and uniform in shape, and but very few small ones. Eyes are slightly depressed, color a beautiful light red. One of the best extra early market varieties, especially for the South. Price: ½ pk 30c; pk 50c; ½ bu 90c; bu \$1.75; bbl \$4.00.

St. L. S. Co.'s New Early "Dix" Potato

This remarkable early Potato has completely captured the country everywhere. Our customers are shouting words of praise for earliness, quality and yield. It is a recordbreaker. It is a magnificent white, extremely fine potato, a great improvement on all other Early sorts. It is a potato that when you once plant you will plant no other. It will please and pay you ten fold over any other variety. We have tested it in every shape and form, in drouth and in wet. Our test report always shows it a marvel. We want everybody to try it this season. You will be more than delighted. Whether for market or home use, you HOW TO SUCCEED GROWING POTATOES is told in T. B. Terry's new

CLOVER SEED.

(60 Pounds per Bushel)

LOVER seed is one of our specialties, and our facilities for cleaning it are superior to many of our competitors. We leaving no trash, sand or shrunken seed in our stock, as do many other seed houses. Our supply is all choice, fancy recleaned stock, the actual test showing that our Choice Grade is equal to any Fancy Recleaned seed offered by other houses. Bags and drayage free. Crop is very short this season.

RED CLOVER—(Fancy recleaned.) The most practical of all Clovers, being used for hay and pasturage, as well as for enriching lands. Our strictly "Fancy Recleaned" grade cannot be surpassed by anyone, and we strongly advise all to use this grade. Always bear in mind that it takes less seed when you sow the best. Hence, it costs no more than inferior grades. Price: 1 lb 35c, postpaid, or 25c per lb by freight or express; 10 lbs \$1.80; bu \$9.65; 100 lbs \$15.50.

MAMMOTH CLOVER-(Sapling) Grows much taller and heavier than common Red Clover. Produces an enormous yield and is of high feeding quality. It is a great soil enricher and is far cheaper than any other fertilizer. It will make your soils light and loamy. Do not fail to give it a trial. Price: Fancy Recleaned, 11b 35c, postpaid; by freight or express, 11b 25c, 10 lbs \$1.75; bu \$9.25; 100 lbs \$15.00.

CRIMSON CLOVER (Scarlet Clover) This is a highly valuable variety on account of its wonderful quick growth. Sown early in spring it furnishes a large crop of hay in May or June. It may be sown in midsummer or early fall as a catch crop for fine winter pasturage and for early spring, before other grasses or clovers are ready. It does not winter-kill so easily as Red Clover, owing to its mass of roots which spread out and go to the depth of furrow. For hay, it must be cut before coming into full bloom. Price: 1 lb 25c, postpaid; by freight or express, 1 lb 15c; 10 lbs \$1.00, bu \$5.75; 100 lbs \$9.00.

ALFALFA CLOVER—(Fancy)—The King of Forage
Plants—Alfalfa is the corner-stone upon which is being built the prosperity of
wide areas of our agricultural country—with its never-failing four to five crops of
from six to twelve tons per acre, and having a value of \$12.00 to \$18.00 per ton; its
great fattening qualities for horses, cattle, hogs, sheep and poultry, its droughtresisting qualities. After once being rooted, its perennity is more than two decades
while some claim for it immortality. There is not one crop known to the West that
pays better returns in cost per acre. The plant is not so fastidious as to soils as has
been thought, but flourishes best in rich, loamy soil. It does not thrive where plant
food is deficient. It grows in many dry places without irrigation; but where there is
sub-irrigation in dry land, or good drainage in most soils, the plant will go fifty feet down and grow and bloom perennially. The best time to sow is
in the spring. In some sections it is sown in the fall. Ground must be very carefully prepared. Price: 1 lb 35c, postpaid; by freight or express, 1 lb
25c; 10 lbs \$1.85; bu \$9.65; 100 lbs \$1.50.

in the spring. In some sections it is so 25c; 10 lbs \$1.80; bu \$9.65; 100 lbs \$15.50.

GENVINE TURKESTAN ALFA-Superior to the ordinary variety because of its greater ability to resist drought or stand higher temperatures. Parallel experiments show it to be superior to our Alfalfa in yield where only a minimum supply of water may be depended upon. It possesses a very large root system, and the general construction of the plant is to enable it to do this. Price: 1 lb 40c, postpaid; by freight or express, 1 lb 30c, 10 lbs \$2.40, bu \$12.40, 100 lbs \$20.00.

ALSIKE OR SWEDISH CLOVER—A very hardy variety that succeeds on any kind of soil and resists extremes of heat and drought. It is usually planted in mixture with grasses for pasturage and for hay; especially with Timothy. It is excellent for bees. When once established it yields enormously, and can be cut several times during the season. In recent years failures to secure a stand with Red Clover is of frequent occurrence. We suggest you trying Alsike. Many have done this to their advantage. It is similar to Red Clover in every particular of growth and feeding value. Price: freight or express, 10 lbs \$1.65; bu \$8.90; 100 lbs \$14.50.

WHITE CLOVER—A small creeping perennial variety, valuable for pasturage and lawns; its flowers are well liked by bees. Flourishes in a variety of soils, but prefers moist ground. It should be included in mixtures for permanent pastures and for lawns. It is effective in preventing the soil from being washed by heavy rains. Price: 1 lb 50c, postpaid; by freight or express, 1 lb 40c; 10 lbs \$2.25; bu \$10.00; 100 lbs \$16.00.

BOKHARA OR BEE CLOVER (Honey Sweet)—Highly recommended by experimental stations; especially adapted to bees, the honey from it being as clear as a crystal. It is also reccommended as a fertilizer, to be turned under when green. It is a very quick, vigorous grower, and possesses superior qualities to most other clovers. Price: 1 lb 45c, postpaid; by freight or express, 1 lb 35c; 10 lbs \$2.75.

JAPAN CLOVER (Lespezeda)—A low spreading perennial, very valuable for dry, sandy land. Price; 1 lb 55c, postpaid; by freight or express, 1 lb 45c; 10 lbs \$3.50, 100 lbs \$34.00.

ERMANENT

Every successful farmer and stockman will agree with us that a pasture or meadow of mixed grasses is far superior to a field of Clover or Timothy alone. More grass in the pasture season is an increasing need all over. Land, whether cut-over timber, hilly and dry, or low and wet, needs seeding to suit new conditions. Wild grasses are disappearing. Replace them with tried cultivated grasses instead of weeds. Use our Pasture Mixtures, which contain grasses of the best mixture.

PASTURE MIXTURE "A"—Good Moist Soils. Sow ten to fifteen pounds per acre. This is intended for the average soil. Use more seed where land is dryer. If stock does not keep down to six or ten inches use the mower to do so. Do not pasture too closely. This is well suited for "patching" your present pasture by disking or harrowing in. Price: 1 lb 30c, postpaid; by frt or exp, 1 lb 20c, 10 lbs \$1.75, 100 lbs \$14.00.

PASTURE MIXTURE "B"—Dry, Hilly Uplands. Sow fifteen to twenty pounds per acre. Recommended for rolling ground, or where stones or sand in soil demand drought-resisting varieties. Plow or disk in where possible, and on unplowed, stumpy or stony ground brush thoroughly. Price: 1 lb 30c, postpaid; by freight or express, 1 lb 20c, 10 lbs \$1.75, 100 lbs \$14.50.

PASTURE MIXTURE "C"-Shaded Pastures. Sow five to ten pounds per acre. This is especially planned to suit the woods, which is often waste except for its timber. Get the seed on and into the ground, do not leave on top of the leaves. The more open use the more seed. Price: 1 lb 30c, postpaid; by freight or express, 1 lb 20c; 10 lbs \$1.85, 100 lbs \$15.50.

PASTURE MIXTURE "D"—Wet, Swampy Soils. Sow ten pounds per acre. Intended to furnish feed where heretofore useless. Burn off the old grass. Use your judgment when and how to sow, keeping in mind washing away by water and getting it covered.

Price: 1 lb 40c; postpaid, by freight or express, 1 lb 30c, 100 lbs \$24.00. TERMS ON THE ABOVE MIXTURES ARE SUBJECT TO MARKET CHANGE

TIMOTHY—(45 lbs per bu) The best of all grasses for hay. Is occasionally used for temporary pasture. It yields fair crops even on light soils. It should be cut when in blossom, in June or July. It is preferable to sow in the fall, but we sell almost as much seed in the early spring, and it is frequently sown then with equal success. Price: 1 lb 25c; postpaid. Fancy—By freight or express: 1 lb 15c; 10 lbs 75c; bu \$2.65; 100 lbs \$5.50. Choice—25c lb postpaid; by freight or express: per lb 10c; 10 lbs 65c; bu \$2.40; 100 lbs \$5.00.

KENTUCKY BLUE GRASS—(14 fbs per bu.) Also called June Grass and Spear Grass. Very valuable and exceedingly popular as a pasture grass. Is too well known among our stock-raising friends to need any comment. It is also valuable as a lawn grass, but we advise sowing a lawn-grass mixture such as our "Havalawn," because it contains some Kentucky Blue Grass and white clover. Kentucky Blue Grass forms excellent pasturage for all kinds of stock and in many sections all winter long. It also makes good hay. (Beware of Canadian Blue Grass, which contains thistles, etc.) Perennial; flowers in June, height, 10 to 15 inches. Sow in October or early spring. Fancy solid seed for pastures—1 lb 40c; postpaid; by freight or express: 1 lb 25c; bu \$2.50; 100 lbs \$1.60.0. Extra clean in chaff—10 lbs \$1.10; 100 lbs \$9.50.

For LAWN GRASS, see page 76. RED TOP—A very hardy native perennial grass, succeeding best on moist land. It accommodates itself to a variety of soils, however, even to quite dry situations, and stands our hot climate admirably. It is, perhaps, the most permanent grass we have. It remains green for the greater part of the year, and its long, trailing stems form a very close matting turf that is not affected by trampling. Sown largely in marshy land or sloughs. Fancy or solid seed—Price: 1 lb 25c, postpaid; by freight or express: 1 lb 15c; 10 lbs \$1.10; 100 lbs \$9.50. Choice seed in chaff—Price: by freight or express: 10 lbs 75c; 100 lbs \$5.00.

ENGLISH PERENNIAL RYE GRASS—(20 lbs per bu) This grass is of as great value to Great Britain as Timothy is to this country. It is invaluable for permanent pastures, for hay if cut when in blossom, and for lawn mixtures. Height 15 to 24 inches. 1 lb 25c, postpaid; by freight or express: 1 lb 15c; 10 lbs \$1.00; bu \$1.50; 100 lbs \$7.00.

Orchard Grass.

ORCHARD GRASS (Rough Cock's Foot)—(14 lbs per bu.) A rather coarse perennial grass that forms dense tufts, recommended for partially timbered soils of the central states. Flourishes best in the shade, making it just the grass for sowing where there is timber. It is a deep-rooting grass, withstanding drought remarkably well, is relished by all live stock, and is very quick to recover from close cropping. Flowers in June; height 2½ feet. Price: 1 lb 30c, postpaid; by freight or express; 1 lb 20c; 10 lbs \$1.65; bu \$2.00; 100 lbs \$12.75.

ENGLISH BLUE GRASS—(14 lbs per bu.) (Meadow Fescue.) A valuable pasture grass. Its long and tender leaves are much relished by all kinds of stock. Cured like Timothy, yields a very superior quality of hay. Also called Sweet Grass. It is one of the earliest in the spring and latest in the fall. Height 18 to 24 inches. Price, 1 lb 25c, postpaid; by freight or express; 1 lb 15c; 10 lbs \$1.10; bu \$1.50; 190 lbs \$9.00.

REED CANARY GRASS—This is also an excellent grass for a covering for wild game and for food, and is sown around spots similar to Smart Weed seed and wild rice. Price; 1 lb 60c, postpaid; by freight or express; 1 lb 45c; 10 lbs \$3.50; 100 lbs \$32,00.

SHEEP'S FESCUE—(14 lbs per bu.) Fescues are being appreciated wherever introduced. This variety deserves a place in the stock pastures of the central west and southwest. Price: 1 lb 30c; postpaid, by freight or express: 1 lb 20c; 10 lbs \$1.50; bu \$2.00; 100 lbs \$12.00.

BERMUDA GRASS—Used extensively in the South for lawns, where other lawn grasses cannot be successfully grown. But it is not desirable for lawns except in the South, as it is affected by the first spell of cold weather. For hay, the first cutting can ordinarily be made in June. It is a creeping plant, putting out roots at every joint, and for binding banks of creeks, dams, etc., or any loose or sandy soils, it is perfectly adapted. Sow seed in the spring, as it will germinate best in warm weather. Price: 1 lb 75c, postpaid; by freight or express: 1 lb 65c; 10 lbs \$6.00; 100 lbs \$48.00.

JOHNSON GRASS—(25 lbs per bu.) Extensively grown in the southern states, where during the hottest and driest months it yields large crops of hay. Cut it before the seed tops emerge from the sheaves. Perennial and a very rapid grower. Sow from August to October, or in spring. Price: 1 lb 20c, postpaid; by freight or express: 1 lb 10c; 10 lbs 90c; bu \$1.90; 100 lbs \$7.00.

RED FESCUE—(14 lbs per bu.) For meadows or pastures on dry, hard or sandy soils. It is very hardy, a true perennial, growing about 1 to $2\frac{1}{2}$ feet high. Price: 1 lb 35c, postpaid; by freight or express: 1 lb 25c; 10 lbs \$1.75; bu \$2.25; 100 lbs \$14.00.

HARD FESCUE—Smaller and less vigorous growth than Sheen's Fescue, but has all the good points of that grass for pasture. It suits sandy or dry, hilly soils. It stands heat or cold and prolonged drought. Price: 1 lb 30c, postpaid; by freight or express; 1 lb 20c; 10 lbs \$1.50; bu \$1.85; 100 lbs \$1.100.

AWNLESS, OR SMOOTH BROME GRASS—(14 lbs per bu.) An erect perennial, 3 to 5 feet high. A native of Hungary, where it is considered one of the best hay grasses, yielding a good return in the arid and silicious soil. It has passed the experimental stage, and our customers can sow it with an assurance of success, on account of its remarkable drought-resisting powers. Price: 1 lb 30c, postpaid; by freight or express: 1 lb 20c; 10 lbs \$1.40; bu \$1.75; 100 lbs \$11.00.

TALL MEADOW OAT GRASS-(14 lbs per bu.) This grass should be given the trial its merit deserves. It is a luxuriant grower for early and late permanent pasture. For hay it may be cut twice a year and for green solling it may be cut four or five times in favorable seasons. It is very hardy, and withstands extreme drought, heat and cold. Height 2 to 4 feet. Price; 1 lb 30c; postpaid; by freight or express: 1 lb 20c; 10 lbs \$1.70; bu \$2.25.100 lbs \$14.75.

MILLETS. (50 lbs. per bu.)

PRICES SUBJECT TO MARKET CHANGES.

The several varieties will furnish food for live stock in the form of grain, fodder or pasture. Especially valuable in seasons when the hay crop is short. They make the best hay if cut when in blossom and carefully cured.

COMMON-Requires a dry, light, rich soil, and grows 21/2 to 4 feet high, with a fine bulk of straw and leaves, and is excellent forage. Choice-Price: 1 lb 20c. postpaid; by freight or express: 1 lb 10c; 10 lbs 30c; bu. \$1.00; 100 lbs \$1.75.

GERMAN. OR GOLDEN-It is usually given preference, by those who use Millets, over the common variety and Hungarian. It is a strong grower and will yield enormous crops of the finest hay, and should be cut before the seeds will harden. Can be sown late after some early crop, and if sown early will mature in time for the ground to be plowed for wheat, and it leaves the ground in fine shape for this purpose. COW PEAS Our Cow Peas are Home Grown Stock.

And Subject to Market Changes. To

OW PEAS are too well known in the South to need any description, and have been used to such an extent in sections close to us and further north that their adaptability to these latitudes is past the experimental stage. They are usually compared with clover. Their feeding value is about equal, and many claim them superior, and their fertilizing value for land is about the same as clover. They can be sown from corn planting time in the spring to September 1. It takes 1½ to 2 bushels for an acre. There are a large number of varieties, but we list only a few and these are the most popular

WHIPPOORWILL — The favorite early bunch-growing variety; has brown speckled seeds. 1 lb 20c; postpaid. By freight or express, 1 lb 10c; pk 65c; bu \$2.25; 10 bu @ \$2.00.

MIXED—We always have a supply of mixed varieties; usually a little lower in price because of this, and equally valuable for soiling. 1 lb 20c; postpaid. By freight or express, 1 lb 10c; pk 50c; bu \$1.75; 10 bu @ \$1.65.

CANADA FIELD PEAS Quite distinct from Cow Peas, yet similar in valuable properties as fertilizer, food, etc. 1 lb 20c; postpaid. By freight or express, 1 lb 10c: pk 60c; bu \$1 75; 10 bu @ \$1.70.

LARGE WHITE MARROWFAT-Our greatest offering in Field Beans this season is our Large White Marrowfat. It is undoubtedly the most prolific bean grown; an ideal winter shelled variety. Pkt 10c; ½ pt 20c; pt 35c; qt 60c; postpaid.

WHITE NAVY-The standard White Bean, smaller than the above. ½ pt 15c; pt 20c; qt 35c; postpaid.

See page 4 for prices on larger quantities on the two above varieties.

SOJA OR SOY BEANS—Like Cow Peas, they are grown for soiling purposes, for ensilage, for pasture and for green manure. Their greatest value, however, will be found in furnishing food for dairy cows, a they are in proper condition for being thus fed at that season of the year when but few plants are available for such use. 1 lb 25c; postpaid. By freight or express, 1 lb 15c; pk 75c; bu \$2.60; 10 bu @ \$2.50.

VELVET BEANS—Used almost exclusively in the South as a forage plant and also a fertilizer for turning under in the same way as Cow Peas.
When ground with or without the pod, are used in place of oats or corn, or mixed with them. 1 lb 25c; postpaid. By freight or express, 1 lb 15c; pk \$1.00; bu \$3.50.

BARLEY

(48 pounds per Bushel.)

WHITE HULLESS—This we concede WHITE HULLESS—This we concede as the finest Barley ever discovered. The straw is very stiff, handsome, and as a yielder it far surpasses its nearest rival. As a fattening feed for hogs this variety is considered marvelous, owing to the fact that it produces sweeter meat and nicer lard than corn. If sown early it can be cut twice, therefore, making two good crops in one year. Price: 1 lb 25c, postpaid. By freight or express, 1 lb 15c; pk 50c; bu \$1.90; 2 bu at \$1.75 per bu. per bu.

THE NEW BRANDT SPRAYER.

N OFFERING this new Sprayer to our customers, we do so with the knowledge that we are offering the finest and best Compressed Air Sprayer on the market. It only requires one stroke for from 15 to 25 hills of potatoes, therefore its labor saving powers cannot be surpassed. The tank is made of heavy Galvanized Iron. Its reversable piston stroke is one of its main features, the plunger being so arranged as to retain suction and eject pressure at the same time. The cone of the nozzle is rigid therefore the spray is solid and uniform. The double nozzle will spray two rows at once, (see top cut) doing just as good work, with the same amount of labor as if only one nozzle was used. However 10 to 15 acres of potatoes per day can easily be sprayed with only one sprayer. The nozzles and attachments are made of brass. In short we consider this the finest sprayer ever invented. Price, with single attachment, (see cut) \$4.50; price with double attachment (see cut) \$6.50. Tree spraying attachment 3 feet long \$1.50 extra. No. 2 cap used for coarser spraying 50c each.

TO HAVE A LAWN, THAT IS A LAWN, IT MUST BE SOWN WITH "HAVALAWN"

"HAVALAWN"

-AND YOU WILL HAVE A HOME-

"HAVALAWN" is the Finest Lawn Producing Mixture in the World, Barring None. We Challange Anyone to Produce Its Equal

Praised and Endorsed by Home-lovers Everywhere
AWARDED THE GREAT WORLD'S FAIR MEDAL*

NOTICE—"HAVALAWN" (name registered in U. S. Patent Office) is procurable only from us. Every package bears our green label. No other is genuine, and we will prosecute all infringements.

OTHING adds more to the appearance of one's home than a nice, green, velvety lawn, whether living in the city or country. A dollar expended in our famous HAVALAWN Grass Seed Mixture will add more than a twenty-five dollar expenditure in any other way. We regret we have not space to reproduce some of the enthusiastic reports from home-lovers who have tried this Wonderful Grass Mixture. "HAVALAWN" is different from all other mixtures, in fact so different there cannot begin to be any Comparison.

Its component parts are the grasses peculiarly adapted to lawns and door yards. It is composed of the best thriving varieties, together with the best known creeping or sod-forming sorts. Timothy and orchard grass are wholly excluded on account of their coarse leaves and only finest sorts are used. Full provision is made for a succession of growth, so that there shall be no break in the richness of the verdure from spring until autumn, and experience proves that Havalawn Grass Mixture in now perfect, and by other seedsmen. Try it this season and be convinced.

Nothing better can be purchased on any market, no matter what claims may be advanced by other seedsmen. Try it this season and be convinced. Price: 1 lb (sows 300 sq ft) 25c; 4 lbs (sows 1200 sq ft) \$1.00; 7 lbs (½ bu sows 2,100 sq ft) \$1.75; 14 lbs (1 bu sows ¼ acre) \$3.90.

"EVERGREEN" LAWN SEED—A mixture of grasses that grows quickly and makes a very satisfactory turf in five or six weeks' time from sowing the seed. We recommend this lawn seed for those who desire a coarse grass. Sow, for 1 acre, 40 to 50 lbs; for ¼ acre, 2 bu. We advise heavy sowing for a new lawn. For renewing old lawns, use ¼ or ½ of these amounts. Price: 1 lb 25c; 2 lbs 45c; 5 lbs \$1.00; 7 lbs (½ bu) \$1.35; 14 lbs (1 bu) \$2.50. Note—Sow same amount per sq ft as "Havalawn."

EXTRA FANCY KENTUCKY BLUE GRASS SEED—(Price Subject to Change.) It is most valuable as a lawn grass, but we advise sowing a lawn-grass mixture such as our Havalawn, because it contains some Kentucky Blue Grass, White Clover and other lawn grasses in proper proportions to make a lawn that is not so easily affected by drouth and heat and is more permanent in winter weather. Sow Blue Grass in October or early spring. Price: 1 lb 25c; 2 lbs 45c; 5 lbs \$1.00; 7 lbs (½ bu) \$1.35; 14 lbs (1 bu) \$2.50.

ST. L. S. CO.'S SHADY LAWN MIXTURE—This mixture is intended for all situations that are in partial or complete shade, and will be found invaluable on grounds lying under the shadows of trees or buildings. This mixture is a combination of fine dwarf-growing evergreen varieties of grass, which grow naturally in shaded spots. Sow seed thickly, 1 pound to 300 sq feet. 25c per lb; per bu (14 lbs) \$3.00.

WHITE CLOVER (Especially Adapted for Lawns)—A small creeping perennial variety. Valuable for pastures and lawns; its flowers are well liked by bees. Flourishes in a variety of soils, but prefers moist ground. It should be included in mixtures for permanent pastures and for awns. It is effective in preventing the soil from being washed by heavy rains, 4 lb 10c; 4 lb 20c; 1 lb 35c; 3 lbs \$1.00.

Lawn and Garden Fertilizers

PRICES QUOTED ARE BY FREIGHT OR EXPRESS

The farms of our land were never in such need of fertilizing as they are to-day. The Government Experiment Stations have proven that with the use of fertilizer you can raise much larger and finer crops, and without drawing on the land for all its nutriment. Reports show that the Western States are "waking up," and that there has been from 500 to 1000 per cent. more increase in different States in the past year in the use of fertilizers. Eastern farmers never think of sowing wheat and grasses without sowing fertilizer also, and our western customers will soon do the same. The proper time to fertilize in St. Louis latitude is September for fall sowing and March for spring sowing.

PURE BONE MEAL, for Farm Purposes—It will take from 200 to 500 lbs to the acre, according to crop. 10 lbs 25c; 25 lbs 60c; 50 lbs \$1.00; 100 lbs \$1.75; 500 lbs \$8.00; 1 ton \$30.00.

PURE BONE FLOUR-Mostly used by florists. Dissolves very quickly. 100 lbs \$2.50.

NITRATE OF SODA-95 to 98 per cent. purity, 18½ to 19½ per cent. ammonia. Sow 100 to 200 lbs to the acre. 25 lbs \$1.50; 50 lbs \$2.50; 100 lbs \$4.25; 500 lbs \$2.

PULVERIZED SHEEP MANURE—As a top dressing for lawns there is nothing better. Promotes a steady and rapid growth in the vegetable garden. For garden and field crops, 1 to 2 tons per acre; one-half before plowing, balance before harrowing. For top dressing use 1 ton per acre—fall or early spring. Our Sheep Manure is treated by a secret process which adds vitality to all roots that cannot be secured otherwise. 25 lbs 75c; 100 lbs \$2.00; 1 ton \$25.00.

"BONORA"—Nature's greatest Lawn and Plant Food. Used and endorsed by all the leading city parks in the United States, as well as all the botanical gardens throughout the land. It is the clixir of life and beauty to lawns, plants, flowers, vegetables, trees, etc., etc. A vitality producer par excellence. "Bonora" will yield from 2 to 3 crops of vegetables each season. Fruiting Trees, and Vines Shrubs

ELOW we offer a partial list of our mammoth nursery stock and call your special attention to the fact that each tree, shrub or vine that we send out is of a No. 1 stock, being grown and bred under the supervision of life experienced nursery men. All trees are fumigated with Hydro Cyanic Acid Gas. Recommended by the U. S. Government as the best composition with which to destroy all diseases, scales and insects. Our stock is perfectly free from the San Jose scale, being inspected annually by the State Entomologist. We pack and ship nursery stock as follows: Oct. 15th to Dec. 15th and from Feby. 1st on according to the weather Note:—If stock is frosted in transit store away in a cold cellar and let thaw out gradually. Write for our circular on spraying. It's free.

NOTE—When sent by express all soil will be left on roots, therefore making a decided advantage for earliness.

When ordered sent by mail add 6c per doz.; 12c per 50; 20c per 100, except where noted.

FLOWER SEED RTME

A HANDY FLOWER SEED GUIDE That will enable you to quickly learn the different names of Flowers without searching all through the the purposes for which many of the plants are best suited.

Take, for example, Floss Flower. It is not listed in our catalog by that name, and you do not remember or may not know its other name. Look down this Guide for Floss Flower and you find that it is numbered 103, which number is only used for convenience. You often see that its other name is number 4. Look back for 4 and you find the name Ageratum. Now you can readily find the description and price by looking for Ageratum, which is on page 90. If you found Ageratum first, the number of its other name, as you see, is 103.

The letters signify, that it is good for bedding, B; for cut flowers, C; for both bedding and cutting, marked X. If it is fragrant it is marked F, and for window boxes, W; for partial shade, S. Where there is no number given, it is known by no other name.

ANNUALS—Are marked for hardy HA; these will bear a hard frost. Half-hardy annuals HHA; these will bear but very little. Tender annuals TA; will bear no frost at all.

BIENNIALS—The hardy, half-hardy and tender blennials require same treatment as annuals, and are marked respectively, HB, HHB and TB. Perennials, HP, HHP and TP. G preceding any of these marks signifies it is a variety that requires indoor culture, and generally the seed requires particular care and attention to successfully start it.

OUR PACKETS ARE LARGE—Instead of giving a large selection of premiums and other catch-penny "gifts" which the CUSTOMER always pays for, we give a larger quantity of SEED. CULTURAL DIRECTIONS will be found in each packet.

New Comet Aster

RUBY AND WHITE

HIS strikingly beautiful Novelty, of the same habit as the other varieties of this popular class of aster, originated from the Ruby Giant Comet Aster introduced a few years ago. Its peculiar color is quite unique among all asters. It is equally valuable for bedding, potting and cutting purposes; in fact we consider it the peer of all asters. Pkt 25c.

BUTTERFLY RUNNER BEAN

One of the most beautiful new climbing flowers. The vine is also extremely floriferous, its leaves, of a somewhat lighter green than other runners, almost disappearing beneath the clusters of charming flowers which gracefully rise and fall, like butterflies in the passing breeze. In the Butterfly Bean we have a beautiful new plant both for the kitchen and pleasure garden, which answers the purpose of both, viz: The flowers and vine being exquisite for beauty, and the fruits or beans being of the finest cooking variety. Hence we have a flower that is both useful and ornamental. Price per pkt, 15c; 2 pkts 25c; postpaid.

The Bridal Robe Chrysanthemum

In this beautiful new Chrysanthemum we offer you a variety that is as distinct as it is beautiful. Of very compact and upright habit, its good growth not exceeding 10 inches in height; the sturdy plants throw out their finely feathered foliage from the base and deck themselves with a

mantle of extra double pure white flowers. With their short closely-set petals the latter recall the finest forms of very large-flowering double Daisies and appear in such number that a large bed in full bloom may well be compared to a drift of snow. Chrysanthemum Bridal Robe from seed, has certainly proven a bedding plant of the very first rank, while also useful for pot culture, and considering the long time the flowers last when cut we safely predict for this new Chrysanthemum a feature never before equaled. We urge our customers everywhere to give it a trial this season. Price per pkt 20c; postpaid.

St. L. S. Co.'s Gilt Edge Nasturtium Mixture.

Our new offering of Dwarf Bedding
Nastrurtiums this season is without doubt the
finest assortment ever offered, and bloom continually all season. We have spared neither
time nor expense in producing the finest strains
of the dwarf varieties to add to our new "Gilt
Edge" Mixture, which yields an endless collection of colorings of the most delicate hue. It
matters not whether you have room for a single
bed or a flower garden, it will pay you to give
preference to this Mixture above all other
flowers. Price, per pkt 10c; oz 20c; postpaid.

St. L. S. Co.'s New Canary Bird Petunia

THE GREATEST THE GRANDEST AND MOST GORGEOUS PETUNIA EVER DISCOVERED.

The First Yellow Petunia Ever Offered

ETUNIA LOVERS desires have at last been granted. We now offer you for the first time in existence a beautiful Canary Yellow Petunia. The plant grows to a height of about 14 in., and is of the most compact growth. The flowers are of medium size with finely fringed and curled borders. The press and public are now going wild over this new species. Florists' demands have become so great that it will be years before the trade can be fully supplied. If you are looking for a flower of the most exquisite beauty, you need look no further. Our new "Canary Bird" Petunia will please and surprise you beyond doubt. Pkt 35c; postpaid.

St. L. S. Co.'s King Alphonso Petunia.

The most beautiful Petunia of the Grandiflora Superbissinia class; it produces flowers of a very dark crimson color, and are boldly waved and frilled to such an extent that the THE KEY TO widely-opened, brilliant black throat of the flower is often almost concealed, as the illustration shows. This new Petunia is almost without comparison. Price: Pkt 25c: postpaid.

St. L. S. Co.'s New Petunia, King Alphonso.

New "Rheingold" Petunia.

This is the greatest and the grandest of the largeflowering petunias. It has very large flowers, of noble shape, whose widely-opened throat, far up towards the outer margin, is steeped into a clean bright golden yellow, untarnished by the usual dot of dark veins, and which with the pure white margin is of a most marvelous effect. In fact it is the most gorgeous petunia ever discovered, and no lover of petunias can afford to be without the "Rheingold." Price: Pkt 25c; postpaid.

We will send the above 3 pkts of Petunias for only 65c; postpaid.

New Glandulosa Aquilegia.

The flowers of this new strain are greatly enlarged, and the range of colors of the flower is of a most delicate blue, the Corolla being pure white. They, of course, are hardy perennials, luxuriating in the more moist situations in the garden, where they form permanent clumps, growing from 1 to 11/2 feet high. The large, unique, long-spurred flowers, gracefully hang on long stems, are not only brilliantly effective on the plant, but equally as desirable when cut for vase and house decorations. MRS. ROOSEVELT

THE GRAND NEW DAHLIA

ur greatest offering, this new Dahlia, is acknowledged to be far superior to any other Dahlia ever before discovered. It is of larger size, better color, more graceful in form, has better stems for cutting, will bloom better, and last, but not least, will keep longer when cut. The flowers are perfectly double, of largest size, 6 to 8 inches, while the color is a delicate pink, shading to soft, clear pink. In fact it is impossible to correctly describe this exquisite beauty. It must be seen that one may fully appreciate its marvelous achievements. The plant is a strong, vigorous, sturdy grower, of branching habit, and is very hardy. It is a very early bloomer, and continues a mass of bloom until killed down by frost. As the season advances, the delicate soft pink zone becomes lighter and the color contrast equisitively lovely, and can be compared with no other flower as it stands in a class by itself. The color of this new wonder does not fade or change like many other flowers, but it is a case where each succeeding flower improves in blended appearance. In short the accompanying illustration can give but a faint idea of its supreme splender. Of the thousands of varieties of Dahlias exhibited on our trial grounds every one was enthusiastic in praise of our new Mrs. Roosevelt in preference to any other Dahlia. The leading florists of the country predict for it THE LEADER, in the foremost rank. We urge you to give it a trial this season. Price: Extra strong hardy roots, each 60c; by express.

ST. L. S. CO.'S ORCHID-FLOWERED SWEET PEA, NORA UNWIN

HE most beautiful white Sweet Pea in existence. Its unique feature is in the extraordinary size of its flowers, usually measuring 2 inches across, and by the standards being crinkled and wavy, while the wings are large and spreading. Another splendid feature is that a very large per centage bear four blossoms to the stem, which are long and strong. To sum up, it possesses every characteristic that can be desired in Sweet Peas, and will undoubtedly supercede all other sorts of same color as soon as tried; we urge you to give it a trial this season. Pkt 20c; postpaid.

ST. L. S. CO.'S NEW NOVELTY SWEET PEA MIXTURE.

ST. L. S. CO'S NEW ANDROMEDA PANSY

One of the Finest Introductions Ever Offered

O beautiful and pure is this striking beauty that words cannot do it justice. So enthusiastic are we over our new Pansy offerings that we know every lover of flowers will not fail to plant the varieties listed on this page. They compose the finest strains and types ever discovered by man. A glance at the illustrations will convince any Pansy lover.

Our new "Andromeda" we concede as an ideal Pansy in every respect, owing to its elegant and remarkable beauty. This pretty flower is striking by its gay color and elegant habit, and will in shortest time win the favor of all. Its color is a very delicate apple-blossom, generally showing soft lavender blue or rosy lilac hue, rendered still more effective by a somewhat darker veining. It comes true from seed and is light-resp, white-seeded. Pkt 20c; postpaid.

ST. L. S. CO.'S NEW EXHIBITION PANSY.

THIS wonderful Giant Pansy we offer as our leader. We challenge its equal from any seed house, grower or originator. We know it is impossible to procure a plant anywhere near its equal in any respect. You will never have known the pleasure of flower-growing until after you have tried this splendid new offering. We control the entire stock of this new wonder, which is produced for us under the skilled eye of Europe's most successful Pansy specialist. The colorings of this new Pansy or mixed, there being no end to the numerous shades which nature has endowed upon this gigantic marvel, every petal being a veritable display of shades and coloring in itself. New "Andromeda" Pansy.

ST. L. S. CO.'S NEW "EROS" PANSY

THIS grand new Pansy novelty produces very large flowers of a deep velvety brown color, with a broad golden yellow margin. The chief characteristic of this variety is just like that of the well known Pansy Freya, that the back of each blossom has the same broad margin as the frontside, while the dark velvety center is shining through, so that a bed of this lovely Pansy has an appearance of being especially full and richflowering. This peculiarity renders this

new Pansy most valuable for groups and beddings, giving them a uniform imposing aspect from all sides. In recent tests we find this to be one of the most thrifty Pansies we have ever seen. Pkt 25c; postpaid.

ST. L. S. CO.'S NEW ADMIRABILIS PANSY

THIS handsome new Pansy is conceded by critics to be one of the finest of recent introductions. The plants form round, compact bushes with elegant, dark green foliage and produce a great number of long-shafted flowers being regularly set and standing free above the foliage. Up to now only white, blue and yellow and shades thereof were to be found. In our new Admirabilis the most peculiar and most brilliant colorings are to be found. It is of the ever-live Specie. By a slight covering of straw it is thorougly protected during the winter months, hence its superiority. There are all shades from purest yellow to brightest scarlet, from delicate rose to deepest purple. Three or five large dark blotches are on each flower, the latter being more or less surrounded with a yellow or whitish edge. It comes true from seed. Pkt 25c; postpaid.

Verbena-like, rose-colored flowers. Elegant trailing habit. HA. Pkt 5c.

ADONIS AESTIVALIS (Pheasant's Eye).

Beautiful dark scarlet flowers with light center. Of easy culture and showy. Fine cut foliage. A very pretty plant. 1 foot, HA, pkt 5c.

AGERATUM (Floss Flower).

One of our best bedding plants in white and blue colors. Blooms all summer long. It is one of the few good bedders whose flowers do not fade out or become spoiled by rain, sun or drouth. It often keeps up a good appearance longer than geraniums. HA, BLUE STAR—A handsome new variety, different from all other Tom Thumb sorts. The tiny bushy plants do not exceed 4 or 5 inches in height, with clusters of flowers of light blue, with dark red center, changing to pure light blue. The plants are literally covered with flowers; we have counted over 200 on a single plant. Pkt 10c.

SALICIFOLIUS (Fountain Plant)—Highly ornalmental; 3 feet. Pkt 5c.

ANTIRRHINUM (Snapdragon).

The flowers are of a very large size, very fragrant, and are produced on immense long spikes, which render them extremely well adapted for cut flowers. They are easily raised from seeds in any rich, sunny bed. Spring seedlings bloom by midsummer, and if the flowers are cut freely the flowering will be continuous till fall. If intended for winter flowering in the house cut them well back in September.

QUEEN VICTORIA—The best of the tall-growing white Snapdragons for cut flowers. The plants (3 ft) produce beautiful large, white flowers on long slender stems the entire season. Pkt 10c; 1/4 oz 20c.

ARCTOTIS GRANDIS (Blue-eyed Daisy.)

Forms profusely-branched bushes of about 2 to 2½ feet in height and breadth. Its flowerheads, borne on long stems and rising well above the foliage, are large and showy, from 2½ to 3 inches across; the ray florets, being pure white on the upper surface, are embellished by a narrow yellow zone at their base; reverse of petals pale lilac; of very easy culture. HA. Pkt 5c.

ALYSSUM.

This is one of the finest hardy annuals we have, and is beloved by many on account of its modest blossoms, very similar to white forget-me-nots. It is pleasantly fragrant, and just the thing for personal adornment or for the breakfast table. It begins to blossom early in the season and blooms

personal adornment or for the breakfast table. It begins to blossom early in the season and blooms more or less constantly until fall.

CARPET OF SNOW—We know of no other white flower which is so particularly well adapted to borders, ribbons, etc., as our Carpet of Snow Alyssum. The plants commence to bloom when quite small, and will flower all summer long till late in the fall. This habit with its fragrance makes it indispensable. HA. ¼ oz 20c; pkt 5c.

ASTERS.

St. L. S. Co.'s NEW HOHENZOLLERN

Our New Hohenzollern we consider the finest aster ever discovered. The plants are tall-growing, the flowers branching and bearing in profusion on very long stalks of from 1½ to 2 feet in length, measure up to 8 inches across, being densely double, finely curled and bearing the greatest resemblance to a large-flowered Japanese chrysanthemum. It is much superior to the Giant Comet or Ostrich Feather type of aster, being much larger. We cannot too strongly praise the wonderful merits of this new aster. Fine Mixed, price per pkt 10c, postpaid.

St. L. S. Co.'s WHITE HERCULES. Originated by the discoverer

of the "Hohenzollern" aster. It is a beauty. The plants throw up a very strong stem, 15 to 20 inches high, which begins to branch about 4 inches from the ground and bears at its summit the main central flower, while on the side shoots appear 4 to 6 secondary blooms. The latter, borne on remarkably strong stalks, are all of the purest white, with very long petals, and attain the enormous diameter of 6 to 7 inches. Price per pkt 15c, postpaid.

IMPROVED VICTORIA

This new strain produces magnificent flowers, massive and showy, with regular overlapping petals double clear to the center. The colors include many extremely delicate

and some gorgeous shades. The plants grow very evenly, about 18 inches high, and carry from 25 to 40 flowers on a plant. Perhaps the handsomest asters, taken all in all, for size, color and profusion of bloom. Can supply the above strain in the following colors: Lavender, white, pink and mixed. Pkt 10c each, postpaid.

our famous new introduction which proved such a success
the past two seasons. Orders poured in from almost every
corner of the globe and the reports received from customers are
most gratifying. Again we offer it as the finest and most valuable
of the Maximum varities. We have no hesitancy in saying it is
superior to any other Chrysanthemum ever offered. It is of a very
set growth, averaging only about 18 inches high. Very floriferous.
The plant is of a globular shape and very decorative, the flowers
open to four inches and more in diameter, and give an abundant
and very handsome cutting material. Contrary to other varieties
listed by many houses, this comes true from seed. It is not particular as to soil, coming up every summer in the same beauty for many
years, and resists the most severe winters. We can especially recommend it, as its pure white flowers surpass all other varieties, commend it, as its pure white flowers surpass all other varieties.

DIANTHUS OR ANNUAL PINKS.

In this large and greatly varied genus are some of the most beautiful and best-loved flowers, unsurpassable for color and fragrance. They are hardy biennials that bloom finely the first season, remaining green all winter and blooming the next year also, if lightly protected. Old plants flower the earliest, but as young ones give the largest, finest flowers, sowings are made every year. Seed can be sown under grass in spring, or in an open sheltered bed. The seedings are easily transplanted and should stand 8 to 12 inches apart; dwarf ones about 6 inches. If especially large, brilliant flowers are desired, a bed of well-mixed turfy loam, leaf-mould and well-decayed manure should be prepared for them. Average height 1 foot be prepared for them. GAILLARDIA (Blanket Flower).

REAT improvements have been made in these worthy garden plants the past few years. Flowers are of extraordinarily large size, many of them 4 and 5 inches across and very highly colored in great diversity of variations and blendings, including such combinations as dazzling scarlet with gold edge, blood crimson with yellow edge, yellow with orange disc, golden with scarlet border, pure yellow, fiery crimson, and many others. Gaillardias are hardy perennials, and they produce a constant succession of flowers all summer and fall; when grown in large groups they are expressively offective as and flowers. gorgeously effective; as cut flowers they are almost unrivaled; the immense and brilliant flowers, on long, self-supporting stems, "vase" handsomely, and they last in water for days.

EXTRA LARGE FLOWERING, All Colors Mixed
—These are undoubtedly among the choicest of hardy perennials; the flowers are large, very numerous, excellent for cutting, and of the most brilliant shades of orange, crimson, searlet, and vermillion, and very often a combination of all these colors in one flower. Pkt 10c.

ANNUAL GAILLARDIA. Produces very double flowers as round as a perfect ball, in the most varied color, and are borne on long, slender stems; when cut. will keep over a week.

HOLLYHOCKS.

RAND summer and autumn flowering plants, bearing long spikes of double flowers, 3 to 4 inches across. They are old inhabitants of our gardens, but are now so improved in doublenees and enlarged in size, under our special culture and hybridization, as to be revelations of gorgeous beauty to those who have not seen these improved sorts. A flower garden without Hollyhocks is unworthy of the name. They are very easily grown from seed, and when once seen in bloom is a sight never to be forgotten. Hardy biennial, 5 to 8 feet high.

NEW EVERBLOOMING DOUBLE ANNUAL HOLLYHOCK

The leaves of this novelty remain bright and green until the autumn. As our old biennial Hollyhocks suffer from frost, and it is not always possible to protect them adequately, hence this new Hollyhock will undoubtedly meet a long felt want, and we urge our customers everywhere to plant freely of it this season. Price per pkt 25c; postpaid.

ALLEGHENY FRINGED, DOUBLE MIXED-Flowers mammoth in size, novel shape, being fringed. Shrimp-pink to deep red in color. Blooms very early and continues late. Blooms the first year from seed if sown early. Pkt 10c.

CHATER'S SUPERB DOUBLE MIXED—An extra fine strain. The plants are hardy and large, robust growers; the flowers are not closely huddled up, like other Hollyhocks, but gracefully and carelessly placed among the large leafy branches, so that the plants are always objects of beauty. Pkt 10c. Note—We also have Chater's Crimson. Rose. Sulphur Yellow

and white in separate colors. Pkt 10c. **DOUBLE MIXED**—Pkt 5c.

THE large-flowered varieties of Petunia, four or more inches in diameter, are best for single plants or small groups. The strains we offer are unrivalled in beauty and variety. The seeds are high-priced because of the great amount of labor and care in artificial fertilization. Seed sown in a hotbed or coldframe early in the spring will produce flowering plants in June. Set the plants about 18 inches apart. They come pretty true from seed, but are not reliable in this respect, being inclined to sport. The seeds of the double Petunia do not posses as much vitality as those of the single, and care must be used to get them to germinate. HA.

St. L. S. Co.'s New Forest Park Petunia

This wonderful new petunia, has met with universal satisfaction everywhere. It is a strain of incomparable beauty, size and luxuriance. STOCKS

TEN-WEEK VARIETIES. HHA.—The Ten-Weeks or Annual Stock has nearly or quite all the requisites of a perfect flowering plant—good habit, fine foliage, and beautiful flowers of almost every desirable tint. They will flower finely in winter in a house that is tolerably cool and moist. For this purpose sow seeds late in the season. Although not a constant bloomer, like Phlox, the flowers endure for a long time, and the side shoots give a succession of bloosoms when the plant can obtain a needed supply of moisture.

DRESDEN PERPETUAL (Cut-and-Come-Again, or Princess Alice)—Pure white. Plants of robust growth and branching habit. If sown early, commences blooming in June and continues until frost, producing flowers in September and October, when other varieties have faded. Fine cutting. Pkt 20c.

NASTURTIU

OR ease of culture, duration of bloom, brilliancy of coloring, and general excellence, nothing excels Nasturtiums. All they need is a moderately good soil in a well drained, sunny position, and from within a few weeks from the time they are sown until hard frost comes there is an endless profusion of their gorgeous blossoms. For cut flowers the tall varieties furnish the largest supply. The plants need not always be run up on something, as they will do very well if allowed to scramble at will over the ground. However, it is for trailing over fences, trellises and the like that they are most commonly used. Do not sow too early.

DWARF VARIETIES—Compact, dwarf plants, 7 in. high-covering a c-reumference of about 18 in., covering the ground like ver-benas. Fine for low beds and pot culture.

CUPID-White, a large snow white variety. Very beautiful.

CUPID. Mixed-Mixture of different colors.

BUSH VARIETIES-These grow in perfect bush form, 16 to 18 inches high. They require no trellis when grown in hedge form, but when grown as individual bushes the support of light crossed sticks should be given. They freely produce flowers of large size.

All Colors, mixed. Oz 15c; 2 oz 25c; 1/4 lb 35c; postpaid.

DOUBLE FLOWERING VARIETIES

These produce usually 40% of beautiful double blossoms; generally doubles and singles are borne about half-and-half on each stem. In some uncongenial situations they produce no double flowers at all.

DOUBLE, WHITE-Oz 15c; 2 oz 25c; 1/4 lb 35c; postpaid.

DOUBLE, MIXED-Oz 15c: 2 oz 25c; 1/4 lb 35c; postpaid.
